

# LYNX Blue Line Extension & University City Area Plan Update

## »» ALL ABOARD!

Charlotte Area Transit Systems (CATS) and the Charlotte-Mecklenburg Planning Department will host a **Community Workshop** on February 11, 2014 to provide an overview on the construction of the LYNX Blue Line Extension light rail project and collect input about the University City Area Plan (UCAP) update. The workshop will focus on **transportation** and **community design guidelines** within the University City Area Plan boundaries.

The **DRAFT University City Area Plan Update** recommendations will be presented to the community for review and comments at the next public meeting on March 11, 2014. This plan update includes Transit Station Area Plans for the University City Blvd, McCullough, and JW Clay Blvd light rail stations as well as surrounding areas.

**Input collected at these important meetings could result in new future land use recommendations for properties within the University City Area Plan boundaries.**

If you have questions about the UCAP planning process or the information above, you may contact the Planning Department at 704-336-2205 or [BLEStationAreaPlans@charlottenc.gov](mailto:BLEStationAreaPlans@charlottenc.gov). For more information about LYNX Blue Line Extension project, please call 704-336-7433, or email [bluelineextension@charlottenc.gov](mailto:bluelineextension@charlottenc.gov).
