Public Infrastructure

Traffic Impact / CDOT Comments. CDOT notes that with the array of uses allowed in both the I-2 and TOD-M zoning categories, a wide range of trip generation is possible for either the existing or proposed zoning scenarios. Given the size of the site, its proximity to the Carson Boulevard light rail station, and the good street network in the South End area, CDOT feels that there should only be minor impacts to the transportation system resulting from this rezoning.
