

RECOMMENDATION

We have the following comments that are critical to CMS' support of this petition:

Adequacy of existing school capacity in this area is a significant problem. We are particularly concerned about rezoning cases where school utilization exceeds 100% since the proposed development will exacerbate this situation. Approval of this petition will increase overcrowding and/or reliance upon mobile classrooms at the schools listed below.

The total estimated capital cost of providing the additional school capacity for this new development is \$935,000 calculated as follows:

Elementary School: **26**x \$20,000 = \$520,000

Middle School: **11**x \$23,000 = \$253,000

High School: **6** \$27,000 = \$162,000

CMS recommends the petitioner schedule a meeting with staff to discuss any opportunities that the petitioner/developer may propose to improve the adequacy of school capacity in the immediate area of the proposed development.

TOTAL IMPACT FROM PROPOSED DEVELOPMENT

Proposed Housing Units: 340 maximum multi-family units (134 rent and 204 sale) under MUDD (CD) zoning

CMS Planning Area: 3

Average Student Yield per Unit: 0.2538 (multi-family for rent, 34 students) and 0.0439 (multi-family for sale, 9 students)

This development will add approximately 43 students to the schools in this area.

The following data is as of 20th Day of the 2006-07 school year.

* High School assignment for the proposed development for 2007-2008 school year is Garinger HS. The data shows the impact on Vance HS for 2006-2007 school year and is not applicable for 2007-2008.

INCREMENTAL IMPACT FROM PROPOSED DEVELOPMENT*

Existing number of housing units allowed: Residential use not permitted under I-2 zoning

Number of students potentially generated under current zoning: 0

The development allowed under existing zoning would generate 0 students, while the development allowed under the proposed zoning will produce 43 students. Therefore, the net change in the number of students generated from existing zoning to proposed zoning is 43.

As requested, we are also providing information regarding the difference in the number of potential students from the existing zoning to the proposed zoning. Please note that this method of determining potential numbers of students from an area underestimates the number of students CMS may gain from the new development.
