

## **RECOMMENDATION**

We have the following comments that are critical to CMS' support of this petition:

Adequacy of existing school capacity in this area is a significant problem. We are particularly concerned about rezoning cases where school utilization exceeds 100% since the proposed development will exacerbate this situation. Approval of this petition will increase overcrowding and/or reliance upon mobile classrooms at the schools listed below.

The total estimated capital cost of providing the additional school capacity for this new development is \$0 (zero) calculated as follows:

CMS recommends the petitioner schedule a meeting with staff to discuss any opportunities that the petitioner/developer may propose to improve the adequacy of school capacity in the immediate area of the proposed development.

## **TOTAL IMPACT FROM PROPOSED DEVELOPMENT**

*Proposed Housing Units:* 10 multi-family units for sale under R-8 MF

*CMS Planning Area:* 12

*Average Student Yield per Unit:* 0.0421

This development will add approximately zero (0) student to the schools in this area.

The following data is as of 20<sup>th</sup> Day of the 2006-07 school year.

<i>Schools Affected</i>	<i>Capacity Without Mobiles</i>	<i>20<sup>th</sup> Day, 2006-07 Enrollment (non-ec)</i>	<i>Additional Students As a result of this development</i>	<i>Total Enrollment As a result of this development</i>	<i>20<sup>th</sup> Day, 2006-07 Utilization (Without Mobiles)</i>	<i>Utilization As a result of this development (Without Mobiles)</i>	<i>Number of Mobiles</i>
Old Providence	594	737	0	737	124%	124%	6
Carmel Middle	946	991	0	991	105%	105%	4
Myers Park	1980	2759	0	2759	139%	139%	14

---

## **INCREMENTAL IMPACT FROM PROPOSED DEVELOPMENT\***

*Existing number of housing units allowed:* 0 units under B-1(CD) zoning

*Number of students potentially generated under current zoning:* None

The development allowed under existing zoning would generate 0 (zero) student, while the development allowed under the proposed zoning will produce 0 students. Therefore, the net change in the number of students generated from existing zoning to proposed zoning is 0.

*As requested, we are also providing information regarding the difference in the number of potential students from the existing zoning to the proposed zoning. Please note that this method of determining potential numbers of students from an area underestimates the number of students CMS may gain from the new development.*
