Petition No: 2014-117

## RECOMMENDATION

We have the following comments that are critical to CMS' support of this petition:

Adequacy of existing school capacity in this area is a significant problem. We are particularly concerned about rezoning cases where school utilization exceeds 100% since the proposed development will exacerbate this situation. Approval of this petition will increase overcrowding and/or reliance upon mobile classrooms at the schools listed below.

The total estimated capital cost of providing the additional school capacity for this new development is \$956,000 calculated as follows:

Elementary School: 28 \$20,000 = \$560,000

Middle School: 9 \$23,000 = \$207,000

High School: 7 x \$27,000 = \$189,000

CMS recommends the petitioner schedule a meeting with staff to discuss any opportunities that the petitioner/developer may propose to improve the adequacy of school capacity in the immediate area of the proposed development.

## TOTAL IMPACT FROM PROPOSED DEVELOPMENT

Proposed Housing Units: Conditional district allows 400 multi-family units, hotel, retail, business, additional permitted uses, etc. under MUDD-O with five years vested rights.

CMS Planning Area: 12

Average Student Yield per Unit: 0.1106

This development will add 44 students to the schools in this area.

The following data is as of 20<sup>th</sup> Day of the 2013-14 school year.

Schools Affected	Total Classroom Teachers	Building Classrooms/ Teacher Stations	20 <sup>th</sup> Day, Enrollment (non-ec)	Building Classroom/ Adjusted Capacity (Without Mobiles)	20 <sup>th</sup> Day, Building Utilization (Without Mobiles)	Additional Students As a result of this development	Utilization As of result of this development (Without Mobiles)
SELWYN ES	44.5	25	823	496	178%	28	184%
ALEXANDER GRAHAM MS	74.3	65	1461	1662	114%	9	115%
MYERS PARK HS	145.5	127	2816	3724	115%	7	115%

## INCREMENTAL IMPACT FROM PROPOSED DEVELOPMENT\*

Existing number of housing units allowed: Currently developed with a parking deck under O-3 (CD) zoning

Number of students potentially generated under current zoning: Zero students

The development allowed under the existing zoning would generate zero (0) student(s), while the development allowed under the proposed zoning will produce 44 student(s). Therefore, the net change in the number of students generated from existing zoning to proposed zoning is 44 student(s).

As requested, we are also providing information regarding the difference in the number of potential students from the existing zoning to the proposed zoning. Please note that this method of determining potential numbers of students from an area underestimates the number of students CMS may gain from the new development.
