

SITE DEVELOPMENT DATA

SITE ACREAGE:	±193.73 AC
TAX PARCELS:	229-171-01 229-171-10 229-171-11 229-171-12 229-171-13
PROPOSED ZONING:	MUDD-O, AND MX-1 Innovative with five (5) year vested rights
EXISTING ZONING:	R-3 and NS
EXISTING USES:	Abandoned Golf Course
PROPOSED USES:	Uses permitted by right and under prescribed conditions together with accessory uses, as allowed in the MUDD-O zoning district and the MX-1 innovative zoning district (as more specifically described below in Section 3).
MAXIMUM GROSS SQUARE FEET OF DEVELOPMENT:	(a) Within the MUDD-O zoning district <ul style="list-style-type: none">• up to 900,000 square feet of gross floor area of office, retail, restaurant, daycare, personal services, and other commercial uses (as more specifically described below in Section 3);• up to 265,000 square feet of Institutional uses;• up to 250,000 square feet of Indoor and Outdoor Recreational uses;• up to 500 residential dwelling units of all types;• up to 300 dwelling units within an Adult Care Center or Nursing Home; and• up to 54,000 square feet of commercial floor area within Development Area H only. (b) Within the MX-1 Innovative zoning district: <ul style="list-style-type: none">• up to 200 detached or attached dwelling units
MAXIMUM BUILDING HEIGHT:	As allowed by the Ordinance in the area zoned MX-Innovative. In the area zoned MUDD-O, building height will be limited to 95 feet (for the purposes of this height limit, architectural features, (such as parapets, spires, mansards, domes and dormers), roof top mechanical equipment, and screens or devices used to screen roof top structures or equipment will not be considered for the calculation of allowed building height when located on a multi-story office building).
PARKING:	(a) As required by the Ordinance for the MX-1 Innovative portion of the Site; and (b) as required by the Ordinance for the portion of the Site zoned MUDD-O.
TOTAL OPEN SPACE:	28.5 AC (includes buffers and public open space)

- Existing Zoning: R-3 and NS
--Proposed Zoning: MUDD-O; and MX-1 Innovative with five (5) year vested rights.
--Existing Uses: Abandoned golf course, office.
--Proposed Uses: Uses permitted by right and under prescribed conditions together with accessory uses, as allowed in the MUDD-O zoning district and the MX-1 innovative zoning district (as more specifically described below in Section 3).
--Maximum Gross Square feet of Development:
- a. Within the MUDD-O zoning district
 - up to 900,000 square feet of gross floor area of office, retail, restaurant, daycare, personal services, and other commercial uses (as more specifically described below in Section 3);
 - up to 265,000 square feet of Institutional uses;
 - up to 250,000 square feet of Indoor and Outdoor Recreational uses;
 - up to 500 residential dwelling units of all types;
 - up to 300 dwelling units within an Adult Care Center or Nursing Home; and
 - up to 54,000 square feet of commercial floor area within Development Area H only.
 - b. Within the MX-1 Innovative zoning district:
 - up to 200 detached or attached dwelling units

--Maximum Building Height: As allowed by the Ordinance in the area zoned MX-Innovative. In the area zoned MUDD-O, building height will be limited to 95 feet (for the purposes of this height limit, architectural features, (such as parapets, spires, mansards, domes and dormers), roof top mechanical equipment, and screens or devices used to screen roof top structures or equipment will not be considered for the calculation of allowed building height when located on a multi-story office building).

- Parking:
- a. As required by the Ordinance for the MX-1 Innovative portion of the Site; and
 - b. as required by the Ordinance for the portion of the Site zoned MUDD-O.

I. General Provisions:

- a. **Site Description.** These Development Standards and the Technical Data Sheet form the rezoning plan (hereafter collectively referred to as the “Rezoning Plan”) associated with the Rezoning Petition filed by Lincoln Harris (“Petitioner”) to accommodate development of a mixed use commercial and residential community on an approximately 193.73 acre site located south of 1-485 in the northwest quadrant of the intersection between Providence Road and Ardrey Kell Road (the “Site”).

On February 13, 2015, the Petitioner filed and Amended Rezoning Application to added three parcels on the north side of Golf Links Drive (Tax Parcels 229-171-10, 229-171-12 and 229-171-13) totaling approximately 3.85 acres to the Rezoning Plan (referred to herein as Development Area H). The purpose of incorporating Development Area H is to allow the Site to have signage on Providence Road. Development activity within Development Area H shall be governed by the site plan and development conditions on RZ-5.

- b. **Zoning Districts/Ordinance.** Development of the Site will be governed by the Rezoning Plan as well as the applicable provisions of the City of Charlotte Zoning Ordinance (the “Ordinance”).

Unless the Rezoning Plan establishes more stringent standards,

- 1. the regulations established under the Ordinance for the MUDD-O zoning classification for the portion of the Site so designated on the Rezoning Plan shall govern all development taking place on such portion of the Site, subject to the Optional Provisions provided below; and
- 2. the regulations established under the Ordinance for the MX-1 Innovative zoning classification for the portion of the Site so designated on the Rezoning Plan shall govern all development taking place on such portion of the Site, subject to the Innovative Provisions provided below.
- c. **Conceptual Master Plan.** The Technical Data Sheet is also accompanied by: a Conceptual Master Plan. Inasmuch as planning for the proposed redevelopment of the Site has not yet advanced beyond the formative stage, the ultimate layouts of the development proposed, the configurations and placements of open space areas and buildings, and the heights, masses and number of buildings in each quadrant have not yet been determined. As a consequence, the configurations, placements, number and sizes of the buildings and treatment of open space areas depicted on the Conceptual Master Plan and any building designs depicted are conceptual in nature and therefore are subject to refinements as part of the total design process. They may, therefore, be altered or modified, in accordance with Section 6.207 of the Ordinance, during design development and construction document phases so long as the maximum building envelope lines and intensity limitations established on the Technical Data Sheet are not violated and the proposed alterations or modifications do not exceed the parameters established under these Development Standards and under the Ordinance for the MUDD District.
- d. **Planned/Unified Development.** The Site shall be viewed as a planned/unified development plan as to the elements and portions of the Site generally depicted on the Rezoning Plan. As such, setbacks, side and rear yards, buffers, building height separation standards, FAR requirements, and other similar zoning standards will not be required internally between improvements and other site elements located on the Site nor between the areas zoned MUDD-O and MX-Innovative. Furthermore, the Petitioner and/or owner of the Site reserve the right to subdivide portions or all of the Site and create lots within the interior of the Site without regard to any such internal separation standards, public/private street frontage requirements and FAR requirements, provided, however, that all such separation standards along the exterior boundary of the Site shall be adhered to and all FAR requirements will be regulated by any development limitations set forth in Section IV below as to the Site as a whole and not individual portions or lots located therein.
- e. **Five Year-Vested Rights.** Pursuant to the provisions of Section 1.110 of the Ordinance and N.C.G.S. Section 160A-385.1, due to the master planned large scale nature of the development and/or redevelopment, the level of investment, the timing of development and/or redevelopment and certain infrastructure improvements, economic cycles and market conditions, this Petition includes vesting of the approved Rezoning Plan and conditional zoning districts associated with the Petition for a five (5) year period.

II. Optional Provisions for the MUDD-O Area.

The following optional provisions shall apply to Development Area A, B, D, E, F and G. Optional provisions related to Development Area H are provided on Sheet RZ-5.

- a. To allow vehicular parking, maneuvering and service areas between the proposed buildings and: (i) Ardrey Kell Road; (ii) Golf Links Drive; and (iii) the interior public and private streets. Additional detail on where and how parking and maneuvering is allowed to occur between the buildings and streets is contained in Sections VI and VII below.
- b. To allow up to four (4) uses with accessory drive-through windows to be located within Development Areas A, B and G.
- c. To allow the existing cellular telephone tower within Development Area F to remain.
- d. To allow along Providence Road, two (2) ground mounted shopping center/development identification signs up to 20 feet in height and containing up to 150 square feet of sign area. These signs may be used to identify any of the uses located on the Site.
- e. To allow along Ardrey Kell Road, two (2) ground mounted shopping center/development identification signs up to 20 feet in height and containing up to 150 square feet of sign area. These signs may be used to identify any of the uses located on the Site.
- f. To allow one (1) detached ground mounted identification sign for each nonresidential building located within Development Areas A, B, D, E and G. These detached identification signs may be up to five (5) feet in height and contain up to 36 square feet of sign area.
- g. To allow wall signs having up to 200 square feet of sign surface area per wall or 10% of the wall area to which they are attached, whichever is less, within Development Areas A, B, D, E, and G.

- h. To allow special event signs and banners not to exceed 100 square feet in sign area, at the intersection of Providence Road and Golf Links Drive and at the intersection of Ardrey Kell and the Site's main north/south street connection. Any banners located at these intersections will be well-designed, professionally fabricated banners made of fabric or plastic of any type. Paper banners will not be allowed; and no more than two (2) banners will be allowed at a time at these intersections.
- i. To allow any of the detached signs permitted by the Ordinance or these Optional Provisions to be placed within the setback provided along Ardrey Kell Road or Providence Road, including within landscape areas indicated on the Rezoning Plan, as long as signage is no closer than fourteen feet from back of curb
- j. To allow, at the Petitioner's discretion, the ability to have one unified construction sign on Ardrey Kell Road up to 200 square feet in sign area in lieu of multiple construction signs as permitted by the Ordinance.

***Note:** The optional provisions regarding certain signs are additions/modifications to the standardsfor signs in the MUDD zoning district and are to be used with the remainder of MUDD standardsfor signs not modified by these optional provisions.*

- k. To not require doorways to be recessed into the face of buildings when the abutting sidewalk width is greater than twelve (12) feet.
- l. To allow required long term bike parking spaces to be located within parking structure.
- m. To allow deviations from typical streetscape standards upon the determination and mutual agreement of Petitioner, CDOT, and Planning Director.

III. Innovative Development Standards for the MX-1 Area.

The following provisions shall apply to the portions of the Site designated MX-1 on the Technical Data Sheet

- a. The Petitioner hereby seeks the following Innovative Development Standards in connection with development taking place within MX-1 areas, to accommodate a variety of setback and yard widths and other development elements so as to allow for a pedestrian friendly residential development:
 - 1. Minimum lot size for single family lots of 3,800 square feet, however lots abutting Stone Creek Ranch shall exceed 9,000 square feet;
 - 2. Minimum lot widths for single family lots of 35 feet; however lots abutting Stone Creek Ranch shall be at least 60 feet in width;
 - 3. Minimum side yards for single family lots of 5 (five) feet;
 - 4. Minimum rear yards for single family lots of 20 (twenty) feet, however lots abutting Stone Creek Ranch shall provide rear yards of at least 35 feet;
 - 5. Minimum front setbacks for single family lots of 14 (fourteen) feet as measured from proposed right-of-way or back of sidewalk (whichever is greater)
 - 6. Minimum lot widths for attached dwellings of 22 (twenty two) feet; however attached dwellings shall only be permitted adjacent to Public Street C and along the extension of Public Street B;
 - 7. Residential uses may front on private streets as long as they are publicly accessible.
- b. In addition, the Petitioner reserves the right to modify the innovative development standards described above or seek other innovative development standards in the future pursuant to the applicable process set forth in the Ordinance.

IV. Permitted Uses, Development Area Limitations, Transfer & Conversion Rights:

- a. The Rezoning Plan sets forth seven (7) development areas as generally depicted on the Technical Data Sheet as Development Areas A, B, C, D, E, F, G and H (each a “Development Area” and collectively the “Development Areas”).
- b. Subject to the restrictions, limitations, and transfer/conversion rights listed below, the principal buildings constructed within Development Areas A, B, D, E, F and G on the Site may be developed: (i) with up to 900,000 square feet of gross floor area of commercial non-residential uses permitted by right and under prescribed conditions, (ii) up to 265,000 square feet gross floor area of Institutional Uses; (iii) up to 250,000 square feet of gross floor area of Indoor and Outdoor Recreational uses; (iv) 500 residential dwelling units of all types together; and (v) up to 300 Nursing Home or Adult Care Center units , along with any accessory uses allowed in the MUDD zoning district
- c. Permitted uses within Development Area C shall be limited to detached or attached dwelling units. No more that 200 dwelling units may be developed within Development Area C. However, if less that 200 dwelling units are developed within Development Area C, then one additional detached or attached dwelling may be developed within Development Area A, D, E and F for each dwelling unit not developed within Development Area C.
- d. For purposes of the development limitations set forth in these Development Standards (the term “gross floor area” or “GFA” shall mean and refer to the sum of the gross horizontal areas of each floor of a principal building on the Site measured from the outside of the exterior walls or from the center line of party walls; provided, however, such term shall exclude any surface or structured parking facilities, areas used for building and equipment access (such as stairs, elevator shafts, vestibules, roof top equipment rooms and maintenance crawl spaces), all loading dock areas (open or enclosed), outdoor coolers and outdoor dining areas whether on the roof of the building(s) or at street level (parking for outdoor dining areas will be provided as required by the Ordinance or these development standards)
- e. Permitted uses within Development Area D shall be limited to institutional uses and detached or attached dwelling units not to exceed four (4) dwelling units per acre based on the overall gross acreage, together with any accessory uses typically associated with residential development
- f. Permitted uses within Development Area E shall be limited to indoor and outdoor recreation, nursing homes, adult care centers, and detached or attached dwelling units not to exceed four (4) dwelling units per acre based on the overall gross acreage, together with any accessory uses typically associated with residential development.
- g. Permitted uses within Development Area F shall be limited to nursing homes, adult care centers, and detached or attached dwelling units not to exceed four (4) dwelling units per acre based on the overall gross acreage, together with any accessory uses typically associated with residential development.
- h. The total square feet of gross floor area devoted to office uses and other commercial uses such as retail, restaurant and personal service uses shall be interchangeable provided that:
 - 1. the total square feet of gross floor area of all such office and other commercial uses does not exceed 900,000 square feet of gross floor area;
 - 2. the total square feet of gross floor area of all office uses does not exceed 650,000 square feet of gross floor area;
 - 3. in the event that a hotel use is developed, the total allowable square footage for office and other commercial uses shall be reduced by 1,000 square feet for each hotel room that is developed; and
 - 4. the total square feet of gross floor area for non-office commercial uses such as retail, restaurant and personal service uses shall not exceed 250,000 square feet of gross floor area in purposes of these Development Standards (Personal Service uses are defined as uses that primarily provide or sell a service to customers versus the selling of goods. A personal service use may also sell products or merchandised but the sale of products and merchandise is typically ancillary. Examples of Personal Service uses include but are not limited to: beauty salons and barber shops, spas, yoga and exercise studios, nail salons, massage shops, martial art training studios, laundries and dry cleaning establishments, locksmiths, and alike).
 - 5. Office uses may exceed the limitations described in Paragraph IV.h.2. and non-office commercial uses may exceed the limitations described in Paragraph IV.h.4. up to an amount not to exceed 10% of the stated amounts by converting office uses into non-office commercial uses such as retail, restaurant and personal services at a ratio of 1 square foot of gross floor area of office uses for every 1 square foot of gross floor area of such non-office uses so converted and vice-versa, subject to the limitation described in item (i) above.
- i. Subject to the limitations set forth below, up to four (4) uses with accessory drive-through windows may be developed within Development Areas A, B and G, subject to the following restrictions and the design guidelines set forth in Section VI below:
 - 1. No more than three (3) restaurants with accessory drive-through windows may be located within Development Areas A, B and G;
 - 2. No more than two (2) banks/financial institutions with accessory drive-through windows may be located within Development Areas A, B and G.
 - 3. One (1) retail pharmacy with accessory drive-through windows may be located within Development Areas A, B or G.

V. Transportation

- a. All public roadway improvements will be subject to the standards and criteria of CDOT and NCDOT, as applicable, to the roadway improvements within their respective road system authority. It is understood that such improvements may be undertaken by the Petitioner on its own or in conjunction with other development or roadway projects taking place within the broad south Mecklenburg area, by way of a private/public partnership effort or other public sector project support.
- b. Access, Internal Streets and Phasing of Transportation Improvements:
- Access to the Site will be from Ardrey Kell Road, the proposed extension of Golf Links Drive and future streets as generally depicted on the Rezoning Plan, subject to adjustments as set forth below.
 - The total number of access points to Ardrey Kell Road will be limited to four (4).
 - Golf Links Drive shall be extended through the Site as generally depicted on the Rezoning Plan (labelled Public Street B). Public Street B, extending from the existing Golf Links Drive to the proposed Public Street C shall be substantially completed prior to the issuance of a Certificate of Occupancy for the first building developed within the Site. Refer to Paragraph V.d.3. below for related roadway improvements. Public Street B will be designed for at least an Office/Commercial wide cross-section with right-of-way width of at least 77 feet, subject to alterations that may be approved by CDOT. Petitioner shall comply with planting strip and sidewalk standards effective at the time of construction as long as the total width of sidewalk and planting strip area does not exceed sixteen (16) feet.
 - Public Street C extending from Ardrey Kell Road through the Site to Public Street B shall be substantially completed prior to the issuance of a Certificate of Occupancy for the first building developed within the Site. Refer to Paragraph V.d.6. below for related roadway improvements
 - A public street connection from Public Street B extending north through Development Area D to connect to Red Rust Lane shall be substantially completed prior to the issuance of a certificate of Occupancy for the first building developed within the Site.
 - Public Street A, located between Development Area A and Development Area B, connecting Public Street B and Ardrey Kell Road, shall be substantially completed prior to the development of more than 50,000 square feet of non-residential uses within Development Area A or Development Area B. Refer to Paragraphs V.d.5. and V.d.7. below for related roadway improvements
 - The roadway improvements noted in Paragraphs V.d.1., V.d.2.ii., V.d.4. and V.d.8. shall not be required until 100,000 square feet of retail uses and 150,000 square feet of office uses are developed on the Site.
 - The roadway improvements noted in Paragraph V.d.2.i. shall not be required until up to 200,000 square feet of retail uses and 300,000 square feet of office uses are developed on the Site.
 - The proposed street connections to adjoining properties along the western boundary of the property shall be provided at the locations specified on the Technical Data Sheet in order to ensure that connections align with existing stub streets or proposed streets on adjoining properties. These street connections along the western property boundary shall be designed with careful consideration of existing and future single family neighborhoods. The design and layout of street connections from those external access points to the internal street network will be determined during the design process and efforts will be made to discourage through traffic on Raffia Road and Wheat Road.
 - “Choker” road shall be installed connecting the Site to Wheat Road and Raffia Road in order to discourage and slow traffic through the adjacent Stone Creek Ranch neighborhood. A Conceptual Cross-Section of the proposed choker connections is illustrated on Sheet RZ-4.
 - The street connection to Raffia Road shall not be completed until Certificates of Occupancy have been issued for homes on at least 50% of the single-family lots proposed within Development Area C or until a Certificate of Occupancy is issued for a public school within the Site.
 - The street connection to Wheat Road shall not be completed before Certificates of Occupancy have been issued for homes on at least 85% of the single-family lots proposed within Development Area C.
 - The number and location of internal streets not depicted on the Rezoning Plan will be determined during the design process and thereafter with approval from appropriate governmental authorities, subject to applicable statutes, ordinances and regulations such as subdivision and driveway regulations. While some individual blocks may be longer, the average block length for all blocks within Development Areas A, B and G, shall not exceed 650 feet.
 - Vehicular access to the residential dwellings located within Development Area C may be from private alleys or private streets.
 - The Petitioner reserves the right to request the installation of pavers and/or stamped or colored asphalt within the Site's public streets in order to designate and define pedestrian cross-walks. The Petitioner will coordinate the design of any decorative pavement elements proposed within the public right-of-way with CDOT during the driveway permit process. Furthermore, the Petitioner understands that an encroachment and maintenance agreement must be obtained from CDOT before any for any decorative pavers and/or stamped pavement proposed in the public right-of-way may be installed.
 - The alignment of the internal public and private streets, vehicular circulation and driveways may be modified by the Petitioner, subject to CDOT's final approval, to accommodate minor changes in traffic patterns, parking layouts and any adjustments required for approval by the Charlotte Department of Transportation (CDOT) in accordance with published standards and industry best practices so long as the street network set forth on the Rezoning Plan is not materially altered.
- c. **Substantial Completion.** Reference to “substantially complete” for certain improvements as set forth in the provisions of Section V.b above shall mean completion of the roadway improvements in accordance with the standards set forth in Section V.a. above provided, however, in the event certain non-essential roadway improvements (as reasonably determined by CDOT) are not completed at the time that the Petitioner seeks to obtain a certificate of occupancy for building(s) on the Site in connection with related development phasing described above, then CDOT will instruct applicable authorities to allow the issuance of certificates of occupancy for the applicable buildings, and in such event the Petitioner may be asked to post a letter of credit or a bond for any improvements not in place at the time such a certificate of occupancy is issued to secure completion of the applicable improvements.
- d. **Site/Offsite Roadway Improvements:**

Petitioner plans to provide or cause to be provided on its own or in cooperation with other parties who may implement portions of the improvements, the improvements set forth below to benefit overall traffic patterns throughout the area in accordance with the following implementation provisions:

- Providence Road (NC 16) & I-485 Inner Loop Ramps:
 - Re-mark the existing westbound combined left-thru lane on the Inner Loop Exit Ramp to a left turn lane.
 - Re-mark the existing westbound right turn lane on the Inner Loop Exit Ramp to a combined left-thru-right turn lane.
 - Construct a westbound right turn lane on the Inner Loop Exit Ramp with 525 feet of storage and appropriate bay taper.
- Providence Road (NC 16) & I-485 Outer Loop Ramps:
 - Construct a northbound right turn lane on Providence Road with 900 feet of storage and an appropriate bay taper.
 - Modify the existing southbound right turn lane on Providence Road to a combined thru-right turn lane. This will also require a minor amount of widening on the west side south of the intersection to receive this 3rd lane of traffic.
- Providence Road (NC 16) & Reconfigured Golf Links Drive/Waverly Offsite Access (reconfigured signalized intersection):
 - Construct a second eastbound left turn lane on Golf Links Drive with 525 feet of storage and appropriate bay taper.
 - With the installation of the traffic signal (upon approval by CDOT and NCDOT), install high-visibility crosswalks with pedestrian signal heads and pushbuttons across all four legs of the intersection.
 - Install 425 feet of storage and a southbound right turn lane on Providence Road with appropriate bay taper.
- Providence Road (NC 16) & Ardrey Kell Road/Future Ardrey Kell Road Extension (reconfigured signalized intersection)

- Construct a second eastbound right turn lane on Ardrey Kell Road with 350 feet of storage and appropriate bay taper.
 - If feasibly possible (with an appropriate design that does not impact the retaining wall at the golf course located on the west side of Providence Road): modify the existing southbound right turn lane on Providence Road to a 3rd thru lane and construct a receiving lane on Providence Road that terminates as a right turn lane at Providence Country Club Drive.
 - If feasibly possible (with an appropriate design that does not impact the retaining wall at the golf course located on the west side of Providence Road): construct a southbound right turn lane on Providence Road with 200 feet of storage and appropriate bay taper.
- Ardrey Kell Road & Providence Row Lane/Proposed Access “A” (future signal)
 - Construct dual eastbound left turn lanes on Ardrey Kell Road with 325 feet of storage each and an appropriate bay taper.
 - Construct a second westbound combined thru-right turn lane on Ardrey Kell Road that commences at the existing drop right turn lane located approximately 500 feet west of Providence Road and terminates at the existing right turn lane at Avaly Road (along the entire site frontage - a length of approximately ¾ of a mile)
 - On Access “A” construct the following:
 - Dual northbound receiving lanes.
 - Dual southbound left turn lanes where the outside left turn lane is a termination of the southbound through lane and the inside left turn lane provides 400 feet of storage.
 - Combination southbound through/right turn lane.
 - With the installation of the traffic signal (upon approval by CDOT and NCDOT), install a high-visibility crosswalk with pedestrian signal heads and pushbuttons across the Proposed Access “A” leg of the intersection.
- Ardrey Kell Road & Proposed Access “D” (future signal)
 - Construct an eastbound left turn lane on Ardrey Kell Road with 400 feet of storage and an appropriate bay taper.
 - Construct a second westbound combined thru-right turn lane on Ardrey Kell Road that commences at the existing drop right turn lane located approximately 500 feet west of Providence Road and terminates at the existing right turn lane at Avaly Road (along the entire site frontage - a length of approximately ¾ of a mile).
 - With the installation of the traffic signal (upon approval by CDOT and NCDOT), install a high-visibility crosswalk with pedestrian signal heads and pushbuttons across the Proposed Access “B” leg of the intersection. In addition, construct a pedestrian refuge island within the painted-out median on the east side of the intersection.
- Ardrey Kell Road & Proposed Right-In/Right-Out Only Access “B” (unsignalized)
 - The Proposed Right-in/Right-Out Only Access “B” should include one ingress lane and one egress lane that terminates as a right turn exit lane.
 - A raised median (minimum four-foot width) should be installed in Ardrey Kell Road a minimum of 50 feet on either side of the access to restrict left entering and exiting movements.
 - The additional westbound through lane along the site frontage (discussed previously) will create a westbound combined through-right turn lane (which terminates as a right turn lane at intersection #8).
- Ardrey Kell Road & Proposed Right-In/Right-Out Only Access “C” (unsignalized)
 - The Proposed Right-in/Right-Out Only Access “C” should include one ingress lane and one egress lane that terminates as a right turn exit lane.
 - A raised median (minimum four-foot width) should be installed in Ardrey Kell Road a minimum of 50 feet on either side of the access to restrict left entering and exiting movements.
 - The additional westbound through lane along the site frontage (discussed previously) will create a westbound combined through-right turn lane (which terminates as a right turn lane at intersection #8).
- Right-of-way Availability.** It is understood that some of the public roadway improvements referenced herein may not be possible without the acquisition of additional right of way. If after the exercise of diligent good faith efforts, as specified by the City of Charlotte right-of-way acquisition process as administered by the City of Charlotte's Engineering & Property Management Department, the Petitioner is unable to acquire any land necessary to provide for any such additional right of way upon commercially reasonable terms and at market prices, then CDOT, the City of Charlotte Engineering Division or other applicable agency, department or governmental body agree to proceed with acquisition of any such land. In such event, the Petitioner shall reimburse the applicable agency, department or governmental body for the cost of any such acquisition proceedings including compensation paid by the applicable agency, department or governmental body for any such land and the expenses of such proceedings. Furthermore, in the event public roadway improvements referenced in subsection a above are delayed because of delays in the acquisition of additional right-of-way as contemplated herein above, then the Petitioner will contact the Planning Department and CDOT regarding an appropriate infrastructure phasing plan that appropriately matches the scale of the development proposed to the public infrastructure mitigations. If after contacting the Planning Department and CDOT to determine the appropriate infrastructure phasing plan, delays in the acquisition of additional right-of-way extends beyond the time that the Petitioner seeks to obtain a Certificate of Occupancy for building(s) on the Site in connection with related development phasing described above, then CDOT will instruct applicable authorities to allow the issuance of certificates of occupancy for the applicable buildings; provided, however, Petitioner continues to exercise good faith efforts to complete the applicable road-way improvements; in such event the Petitioner may be asked to post a letter of credit or a bond for any improvements not in place at the time such a Certificate of Occupancy is issued to secure completion of the applicable improvements.
- Alternative Improvements.** Changes to the above referenced roadway improvements can be approved through the Administrative Amendment process upon the determination and mutual agreement of Petitioner, CDOT, Planning Director, and as applicable, NCDOT, provided, however, the proposed alternate transportation improvements provide (in the aggregate) comparable transportation network benefits to the improvements identified in this Petition.

VI. Design Guidelines:

a. **Statement of Overall Design Intent.**

- Land Use: The site plan for the Site contemplates an integrated, pedestrian friendly development through a horizontal mixture of uses including office, retail, service, civic, recreational, and open space as well as a variety of residential uses.
- Open Space: The Site will incorporate a system of public and private open spaces throughout that will be interconnected by sidewalks and walking trails and linked to an active amenitized open space area at the core of the Site.
- Community Design: The site plan for the Site will seek to emphasize pedestrian connections between uses and create a strong link between the commercial core of the development and adjacent uses. Additionally, streetscapes, landscaping and high-quality building materials will be used in a manner that creates a unified development pattern. Where opportunities exist, a vertical mix of uses will be encouraged but not required. Buildings will orient and provide prominent entrances along frontages on Public Street A and the Public Green.
- Transportation and Mobility: The Site's internal street network will establish new connections between existing developments on adjoining properties providing multiple route options and creating new opportunities for non-automobile travel while also incorporating traffic calming devices in order to mitigate adverse impacts on adjacent residential neighborhoods.

1. The principal buildings constructed on the Site may use a variety of building materials. The building materials used for buildings (other than structured parking facilities) will be a combination of the following: glass, brick, stone, simulated stone, pre-cast stone, architectural precast concrete, synthetic stone, stucco, cementitious siding (such as hardi-plank), or wood. EIFS as a building material will not be allowed, except as back-up for architectural trim on stucco clad buildings. Vinyl, as a building material, will only be allowed on windows and soffits.
2. The Site will include a series of publicly accessible open spaces and plazas as focal points. These focal points will include some combination of landscaping, monumentation, water feature, seating areas and/or art work features.
3. Streetscape treatment will be a unifying element through the use of consistent paving, lighting, landscaping, and, when provided, site furnishings, throughout Development Areas A, B and G.
4. Specialty pavers, stained and patterned concrete/paving or other similar means will be used to call attention to amenity areas, gathering spaces, plazas and as a method of way-finding.
5. Circulation paths will be provided along the Site's Public and Private Streets from parking areas and decks to building entries and areas of interest.
6. Meter banks will be screened where visible from public view at grade level.
7. Rooftop HVAC and related mechanical equipment will be screened from public view at grade level
8. All dumpster areas shall be enclosed by walls and opaque gates utilizing materials similar in nature and complimentary in design to adjacent buildings.

1. Freestanding retail uses shall not exceed 24,000 square feet.
2. During the initial phases of development, uses within Development Area A may be served by surface parking areas. Structured parking facilities shall be required when/if office square footage within Development Area A exceeds 240,000 square feet.
3. Buildings shall not exceed six (6) stories.
4. The Rezoning Plan provides for a signature Public Green with significant building frontage in order to create a well-defined edge for that public open space. Surface parking areas shall be designed to minimize their visibility from the Public Green.
5. Surface parking may be located along Ardrey Kell Road, Golf Links Drive or other internal if adequately screened from those streets by landscaping. However, off-street parking and maneuvering areas may not be located between Ardrey Kell Road and proposed buildings, but vehicular parking and maneuvering may be located to the side or behind such buildings, behind the established setback.
6. Drive-through uses within Development Area A shall only be permitted on parcels with frontage on Ardrey Kell Road.
7. Multifamily buildings with facades in excess 250 linear feet that front on public or private streets shall be articulated in one or more of the following methods to visually break down the buildings potentially monolithic mass and achieve an appropriate pedestrian scale along the street wall:
 - i. Façade Modulation varying the plane of the building street wall to break up the mass of the building.
 - Minimum width of 15'-0" and a minimum depth of 5'-0"
 - No single section of the façade shall exceed 150'-0" in length
 - May be achieved through multiple modulations
 - ii. Building Mass Separation at a depth of at least 25'-0" from the street wall and a width of at least 25'-0" open to the sky.
 - No single section of the façade shall exceed 150'-0" in length
 - iii. Architectural Façade Variations along the street wall to visually break down the building's mass with intervals not exceeding 150'-0". These façade variations shall include at least two of the following techniques:
 - Varied Architectural Styles
 - Varied Roof Pitches
 - Varied Window Arrangement and Sizes
 - Significant Exterior Façade Materials Changes
 - Offset Wall Planes

d. Development Area B Design Guidelines.

1. Individual retail uses shall not exceed 60,000 square feet. However, in the event that a grocery store use is developed, that use may occupy up to 85,000 square feet.
2. Buildings shall not exceed three (3) stories in height.
3. Service areas shall be designed to face existing service areas within the adjacent Rea Village Shopping Center.
4. Any drive-through uses within Development Area B shall be internally oriented and drive-through facilities shall not be visible from Public Street A.
5. Retail areas in buildings fronting Public Street A shall provide a ground floor Fenestration Zone having a minimum of 60% fenestration of the ground floor façade area measured between 2' and 10' above the sidewalk along Public Street A. Up to 40% of the required fenestration may be comprised of display windows. These display windows must maintain a minimum of 3'-0" clear depth between window and rear wall. Windows within the Fenestration Zone shall not be screened by film, decals or other opaque material, glazing finishes or window treatments. The maximum sill height for required fenestration shall not exceed 4'-0" above the sidewalk.
6. The primary entrance to buildings along Public Street A shall be on the Public Street A façade of those buildings. These entries shall be recessed a minimum of 3'-0" deep with a minimum width of 5'-0" unless fronting a sidewalk with a minimum width of 12'-0".
7. Parking Areas for the retail buildings along Public Street A shall be located behind the buildings fronting Public Street A and shall be screened by the buildings, except at pedestrian ways providing access from parking areas to the street.
8. The facades of the retail buildings along the Public Street A fronting the parking areas shall provide a Ground Floor Fenestration Zone of 30% of the ground façade area as defined in Paragraph 5 above unless a particular façade directly abuts a required service area. Up to 40% of the required Fenestration Zone may be display windows as defined in paragraph 5 of this Section.
9. The main retail anchor shall comply with Paragraph 5 of this Section above along its primary facade directly facing Public Street A but shall only be required to meet façade design

10. Required service areas with Development Area B shall be screened per requirements of the Zoning Ordinance. Those service areas directly abutting retail buildings along Public Street A shall be located to the rear facades of these building, away from the street and within the parking areas. These service areas shall have screen walls constructed to match the building's exterior finish materials and be accessed through opaque gates.

1. Buildings shall not exceed three (3) stories in height.
2. A buffer area at least twenty five (25) feet wide shall be maintained along that portion of the Site's western property boundary which touches the Stone Creek Ranch neighborhood. Petitioner shall provide plantings within the buffer area in accordance with the requirements for a Class C buffer under the Ordinance. However, in areas where existing vegetation is sufficient, the buffer area shall remain undisturbed.
3. Attached, front loading garages shall be recessed at least two (2) feet behind the front façade of the residential structure and the width of the garage shall not exceed 50% of the front façade width.

1. Buildings shall not exceed three (3) stories in height.
2. Vehicle parking, circulation and maneuvering areas may be located between proposed buildings and adjacent streets.
3. Institutional uses shall not exceed three (3) stories in height, unless additional height is approved by the Planning Director.
4. The mass of any institutional buildings shall be placed to create a strong built edge along Public Street B.
5. Fenestration along Public Street B shall constitute a minimum of 25% of the surface area of the street façade. Non-fenestrated areas shall meet the requirements of the MUDD district per the Zoning Ordinance.
6. Primary parking and driveway areas shall be located to the rear or sides of the building and screened per Ordinance requirements.
7. A primary pedestrian entrance to the sidewalk along Public Street B shall be provided to enhance pedestrian connectivity within the Site.

1. Buildings shall not exceed three (3) stories in height.
2. Parking areas shall be located to the rear or side of buildings.
3. A primary building entrance fronting on Public Street B shall be provided to enhance pedestrian and activity. The entrance shall be connected to the sidewalk along Public Street B by a sidewalk that terminates at the axis of Public Street A.
4. A Ground Floor Fenestration Zone as defined above shall be provided along Golf Links Drive. This Fenestration Zone shall represent 30% of the ground floor façade. Those functional areas of any recreational use that cannot accommodate fenestration (i.e., certain gyms, racquetball courts, locker rooms, etc.) shall meet the guidelines for Façade Articulation for the MUDD District per the Zoning Ordinance.

1. Buildings shall not exceed three (3) stories in height.
2. Drive-through uses shall only be allowed immediately adjacent to Public Street A and within the portion of Development Area G lying east of Public Street A.
3. Drive-through uses shall be designed to facilitate safe pedestrian crossings.
4. Drive-through uses shall be designed to be internal to the Site where possible.
5. Site design shall encourage pedestrian travel between Development Area G and the remainder of the Site.
6. If drive-through lanes are installed between the buildings and the adjacent streets, low walls and low accent plantings will be provided between the drive through lanes and the adjacent streets, such walls may be intermittent but shall be constructed of building materials generally compatible with the buildings to which they relate. Alternate screening and landscaping treatments may be approved by the Planning Director.
7. Off-street parking areas may not be located between Ardrey Kell Road and proposed buildings, but vehicular parking may be located to the side or behind such buildings, behind the established setback. In areas adjacent to and lying east of Public Street A, vehicle circulation and maneuvering areas may be located between Ardrey Kell Road and the proposed buildings.

- a. Building materials associated with facades on parking structures shall be generally compatible in character and quality with materials used on nearby buildings, plazas and streetscapes, taking into consideration differences associated with parking structures.
- b. Parking structures shall be designed to materially screen the view of parked cars from adjacent public or private streets or publicly accessible open spaces or plazas. Screening of cars on the ground level will be accomplished primarily through the use of landscaping; and screening of cars parked on the upper level will be accomplished by a wall, at least 36 inches in height, designed as part of the parking deck structure.
- c. On-site loading docks and waste areas shall be separated and/or screened from view at ground level from primary building entrances.

- a. Along the Site's internal streets, the Petitioner will provide a sidewalk and a cross-walk network that links the buildings, parking areas and areas of interest on the Site with one another by way of links to sidewalks along the abutting public and private streets and/or other pedestrian features. Street trees will also be provided within planting strips along the Site's internal public and private streets.
- b. Walkways through plazas or publicly accessible open space areas will be at least six (6) feet in width and shall be appropriately designed for the intended use and type of open space area in which they are located.
- c. Where walkways occur along building walls, a walkway width of at least six (6) feet must be maintained clear of door swings, shopping cart storage, and temporary trash or similar impediments
- d. Deviations from typical sidewalk and planting strip requirements may be approved upon the determination and mutual agreement of Petitioner, CDOT and Planning Director as applicable.

- a. The Petitioner will provide a "Public Green," at least three (3) acres in size, located within Development Area A and Development Area B in the location generally depicted on the Technical Data Sheet. The Public Green will be designed as a significant pedestrian focal point and an amenity for that portion of the development. The Public Green will include elements such as: water features, specialty graphics, landscaping, specialty paving, seating areas, signage (e.g. way-finding, directional, special event) art work and/or other site elements that help create a vibrant Public Green area. Portions of the Public Green may be used for outdoor dining associated with restaurants.
- b. The Public Green shall be completed prior to the issuance of a certificate of occupancy for the retail anchor with Development Area A or a multi-family building within Development Area B, whichever occurs first.
- c. Open spaces associated with water quality/storm water detention ponds may be improved as amenity areas with seating areas, naturalized paths and landscaping.

X. **Buffers:**

- a. A buffer area at least twenty five (25) feet wide shall be maintained along that portion of the Site's western property boundary which touches the Stone Creek Ranch neighborhood. Petitioner shall provide plantings within the buffer area in accordance with the requirements for a Class C buffer under the Ordinance. However, in areas where existing vegetation is sufficient, the buffer area shall remain undisturbed.
- b. Petitioner shall provide a landscaped setback along Ardrey Kell Road, as measured from the back of the existing curb or back of the future curb line. This area off of Ardrey Kell Road will be landscaped with a variety of landscape materials (trees, shrubs, ornamental grasses, grass, and/or areas of seasonal color). A minimum of 25 shrubs and 5 trees per 100 linear feet will be planted within this area. A six (6) foot wide sidewalk will be provided within the landscaped setback. This planted sidewalk may meander or be located at a consistent distance (minimum 8 feet) from the back of curb.

XI. **Environmental Feature:**

The Petitioner shall comply with the Charlotte City Council approved and adopted Post Construction Controls Ordinance. The location, size, and type of storm water management systems depicted on the Rezoning Plan are subject to review and approval as part of the full development plan submittal and are not implicitly approved with this rezoning. Adjustments may be necessary in order to accommodate actual storm water treatment requirements and natural site discharge points.

XII. **Signage**

- a. Signage as allowed by the Ordinance and by the Optional Provisions set forth under Section II above may be provided. Because the Site will be viewed as a Planned/Unified-Development as defined by the Ordinance, shopping center signs may be located throughout that portion of the Site zoned MUDD-O as allowed by the Ordinance and the Optional Provisions. In addition, uses located on the interior of the Site may be identified on the allowed shopping center/development signs (by way of example, the multi-family developments and single-family developments may be identified on the signs allowed along Ardrey Kell Road and Providence Road). The allowed signs may contain identification signage for any of the uses located on the Site.
- b. Master signage and graphics systems may be adopted.
- c. Information and Advertising Pillar Signs as defined by the Ordinance may be provided on the portion of the Site zoned MUDD-O.
- d. On premises directional and instructional signs may be located throughout the Site per the standards of the Ordinance.
- e. Temporary Banners as allowed by the Ordinance may be provided.

XIII. **Lighting:**

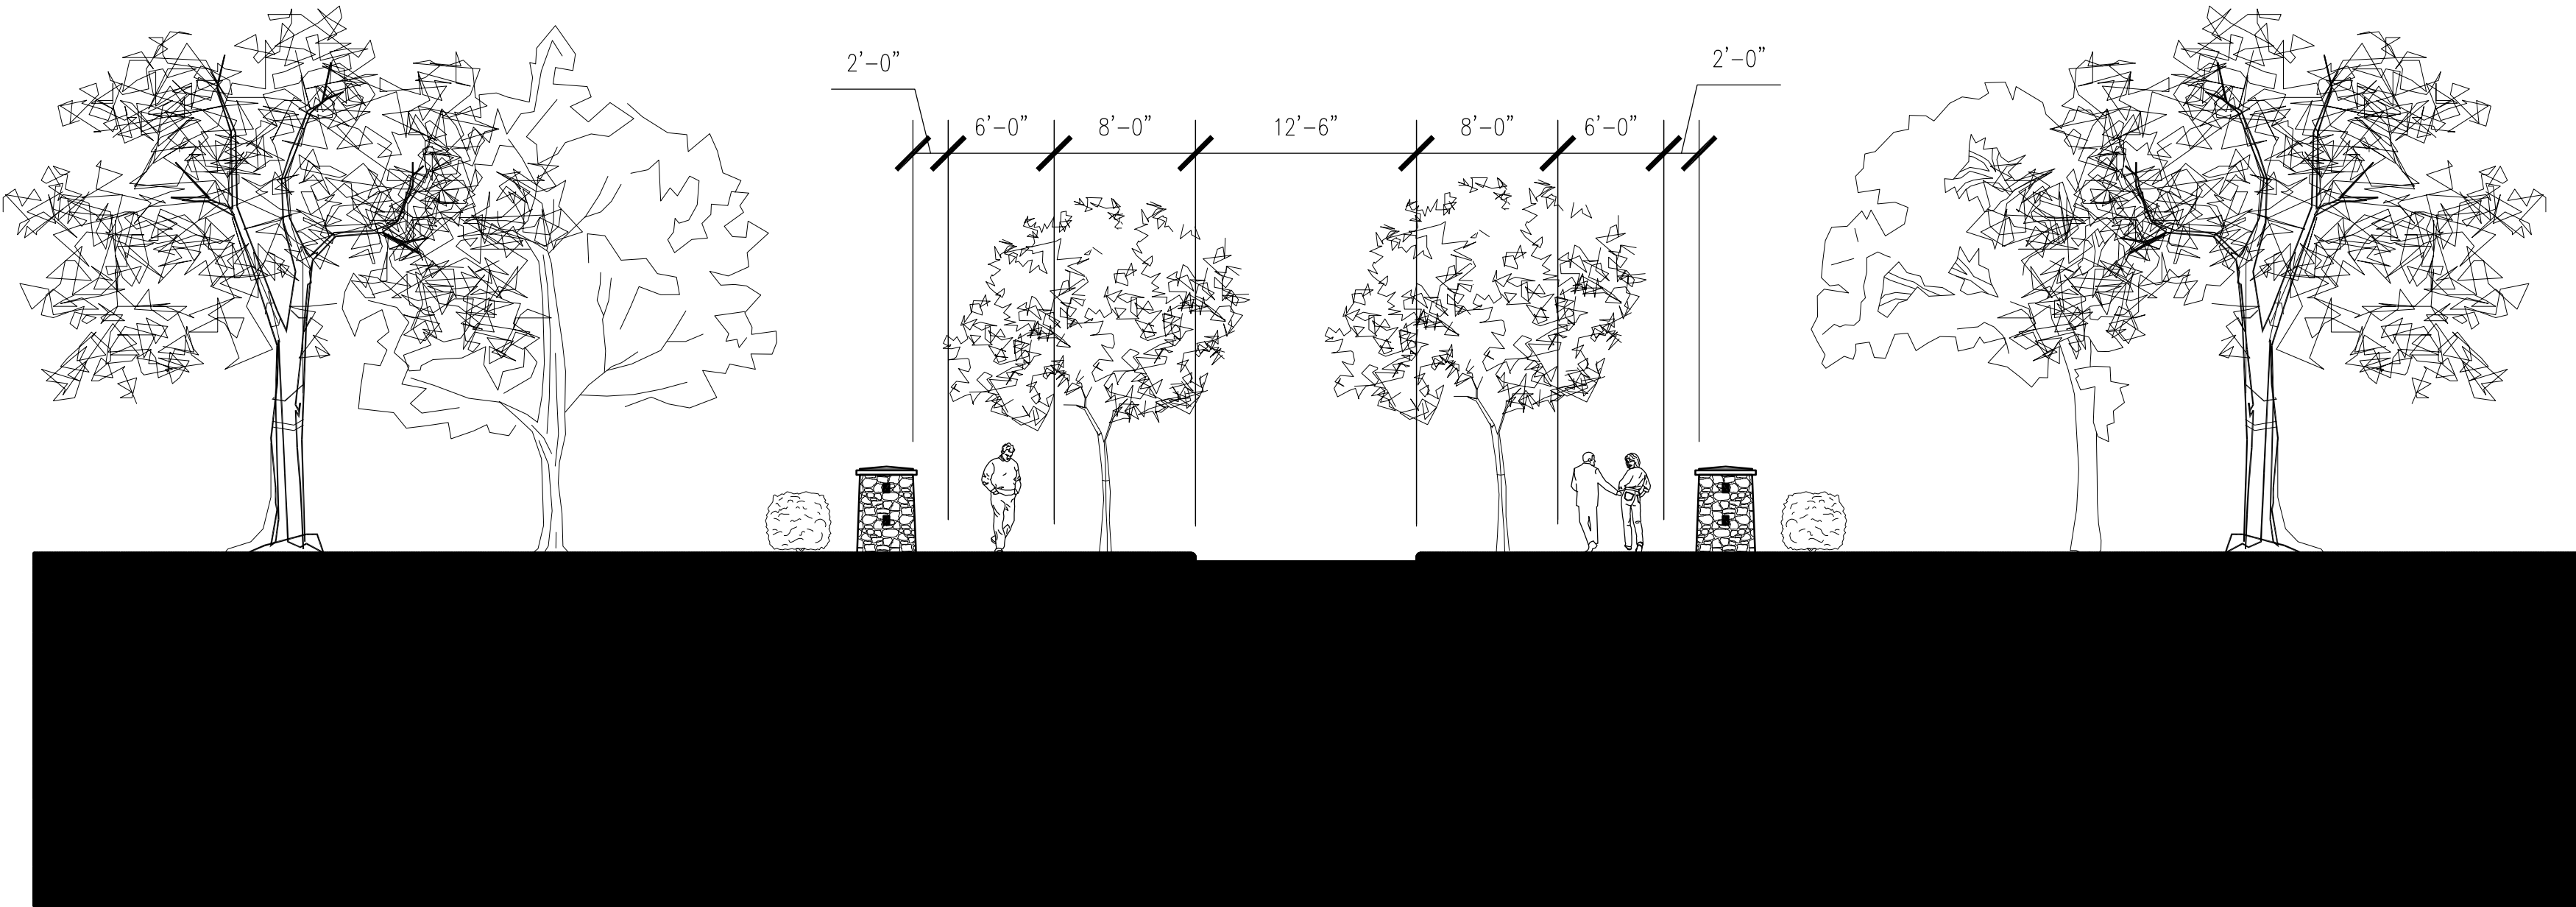

- a. All new lighting shall be full cut-off type lighting fixtures excluding lower, decorative lighting that may be installed along the driveways, sidewalks, and parking areas.
- b. Detached lighting on the Site, except street lights located along public and private streets, will be limited to 30 feet in height in the portions of the Site used for non-residential uses and 25 feet in height in the portions of the Site used for residential uses.

XIV. **Amendments to the Rezoning Plan:**

Future amendments to the Rezoning Plan may be applied for by the then Owner or Owners of the applicable Development Area portion of the Site affected by such amendment in accordance with the provisions herein and of Chapter 6 of the Ordinance.

XV. **Binding Effect of the Rezoning Application:**

If this Rezoning Petition is approved, all conditions applicable to the development of the Site imposed under the Rezoning Plan will, unless amended in the manner provided herein and under the Ordinance, be binding upon and inure to the benefit of the Petitioner and subsequent owners of the Site or Development Areas, as applicable, and their respective heirs, devisees, personal representatives, successors in interest or assigns.

"CHOKER" ROAD CONCEPTUAL CROSS SECTION

Development Area H was developed in accordance with the Technical Data Sheet and Development Standards related to Rezoning Petition 2004-134. There is no intent to permit new development within Development Area H or to alter the basic zoning conditions of Rezoning Petition 2004-134. The purpose of including Development Area H in current rezoning is to request MUDD Optional provisions that will allow additional signage within Development Area H and to address any nonconformities that would otherwise be created when the existing development is rezoned to the MUDD zoning district.

Optional Provisions:

1. To allow along Providence Road, two (2) ground mounted shopping center/development identification signs up to 20 feet in height and containing up to 150 square feet of sign area. These signs may be used to identify any of the uses located on the Site.
2. To allow wall signs having up to 200 square feet of sign surface area per wall or 10% of the wall area to which they are attached, whichever is less.
3. To allow a drive-through window as an accessory to a financial service use.
4. To allow vehicular parking, maneuvering and service areas between buildings and streets.
5. To allow non-standard sidewalks and planting strips along Golf Links Drive.

1. THE SITE PLAN CONSISTS OF THE TECHNICAL DATA SHEET AND THE ILLUSTRATIVE PLAN. THE TECHNICAL DATA SHEET CONTAINS ALL DEVELOPMENT NOTES AND CONDITIONS REGARDING SUCH THINGS AS VEHICULAR ACCESS POINTS, SETBACKS/RETAINMENT, ETC. THE GENERALIZED BUILDING/PARKING/CIRCULATION AREAS, DEVELOPMENT INTENSITY, ETC. THE ILLUSTRATIVE PLAN DEPICTS A DEVELOPMENT SCENARIO BASED UPON THE INFORMATION PROVIDED. THE TECHNICAL DATA SHEET, HOWEVER, OTHER DEVELOPMENT SCENARIOS ARE PERMITTED AS A MATTER OF RIGHT, WHICH ALLOWS ALTERNATIVES TO THE ARGUMENT OF BUILDING/PARKING/CIRCULATION AREAS, BUILDING FOOTPRINTS AND SHAPES, ETC. SUCH CHANGES SHALL STILL REFLECT THE "NEO-TRADITIONAL" STYLE LAYOUT OF THE SITE AS GENERALLY DEPICTED ON THE PLAN.
2. THE PROPOSED DEVELOPMENT SHALL COMPLY WITH ALL APPLICABLE CITY OF CHARLOTTE REGULATIONS PERTAINING TO OFF-STREET PARKING, SIGNAGE, BUFFERS/LANDSCAPING, SCREENING, DRAINAGE, TREE ORDINANCE, ETC.
3. FARKING FOR THE OVERALL SITE SHALL BE CONSIDERED AS A UNIFIED DEVELOPMENT AND SHALL BE CALCULATED AS IF THE SITE IS ZONED O-1. NO REDUCTION IN PARKING AS PERMITTED BY ITS ZONING SHALL BE ALLOWED.
4. THE NUMBER OF VEHICULAR ACCESS TO THE SITE SHALL BE LIMITED TO ONE (1) POINT OF INGRESS/EGRESS. THE LOCATION OF SUCH ACCESS, HOWEVER, THE LOCATIONS MAY VARY SOMEWHAT FROM THAT DEPICTED. THE LOCATION AND DESIGN SHALL COMPLY WITH ALL APPLICABLE STANDARDS AND REQUIREMENTS OF THE CHARLOTTE DEPARTMENT OF TRANSPORTATION.
5. MAXIMUM BUILDING HEIGHTS SHALL BE TWO STORIES (MAY INCLUDE ATTIC AND/OR FINISHED SPACE WITHIN THE AREA HEIGHT OF THE ROOF.
6. A CLASS "C" BUFFER SHALL BE ESTABLISHED WHERE THERE IS INSUFFICIENT NATURAL VEGETATION TO COMPLY WITH MINIMUM BUFFER STANDARDS. THE BUFFER SHALL BE ESTABLISHED WITH NEW LANDSCAPING IN ACCORDANCE WITH APPLICABLE STANDARDS.
7. A 30 FOOT SETBACK MEASURED FROM THE R/W LINE SHALL BE ESTABLISHED ALONG THE SITE'S PROVIDENCE ROAD FRONTAGE. A R/W MEASURING 50 FEET FROM THE CL OF PROVIDENCE ROAD SHALL BE ESTABLISHED AS SHOWN. PETITIONER HAS DEDICATED THE NEW R/W AREA
8. STORM WATER DETENTION SHALL NOT BE LOCATED IN THE SETBACK AREAS OR THE BUFFER AREAS. STORM WATER DETENTION FOR PORTIONS OF THE SITE MAY BE PROVIDED IN A COMMON DETENTION FACILITY, LOCATED ON ANY LOT CREATED BY FUTURE SUBDIVISION. CROSSING OF THE PROPOSED PAVED ROAD TO CONNECT TO THE DETENTION SYSTEM WILL BE ALLOWED AS WELL AS DIVERTING STORM DRAINAGE FROM THE PAVED ROAD TO THE PROPOSED DETENTION FACILITY WHILE DISCHARGING NON DETAINED FLOW FROM A LIKE AREA AS WELL AS ALLOWING DEVELOPMENT TO EXIST ON EXISTING WETLAND AREA TO MAINTAIN DRAINAGE TO SUCH WETLANDS AREA.
9. MAXIMUM HEIGHT BUILDING LIGHTING SHALL BE 30 FEET. LIGHTING SHALL BE DESIGNED IN A MANNER TO SHIELD/DIRECT LIGHTING GLARE AWAY FROM RESIDENTIAL AREAS.
10. BUFFERS AREAS SHALL NOT BE REDUCED IN DEPTH FROM THAT DEPICTED ON THE PLAN.
11. SCREENING SHALL BE PROVIDED IN ACCORDANCE WITH SECTION 12.303 OF THE CITY OF CHARLOTTE ZONING ORDINANCE.
12. BUFFERS SHALL REMAIN UNDISTURBED EXCEPT THAT ANY AREA WHICH ARE SPARSELY VEGETATED (VEGETATION LESS THAN 2 INCHES IN CALIPER) MAY BE CLEARED IF NECESSARY FOR THE PROPOSED DEVELOPMENT OF THE SITE, AND TO ACCOMMODATE UTILITY EXTENSIONS ASSOCIATED WITH DEVELOPMENT. ANY CLEARED AREAS SHALL BE REPLANTED IN ACCORDANCE WITH APPLICABLE BUFFER REQUIREMENTS.
13. TREES LOCATED WITHIN THE FRONT SETBACK AREA WHICH ARE 6 INCHES OR GREATER IN CALIPER SHALL BE PRESERVED OR MITIGATED PER CITY OF CHARLOTTE TREE ORDINANCE.
14. THE MAXIMUM HEIGHT OF DETACHED POLE LIGHTS SHALL BE RESTRICTED TO
15. WALL PAKE TYPE LIGHTING SHALL NOT BE ALLOWED.
16. ALL BUILDINGS SHALL BE LOCATED WITHIN A SOLID ENCLOSURE WITH
17. BUILDINGS ON THE SITE WILL BE CONSTRUCTED WITH BRICK AND/OR OTHER MASONRY FINISHING MATERIALS ON BOX OF THE EXTERIOR WALLS OF EACH BUILDING.
18. THE PETITIONER/DEVELOPER SHALL INSTALL OR PAY THE CITY OF CHARLOTTE FOR THE INSTALLATION DURING PROVIDENCE ROAD WIDENING OF A 5 FOOT SIDEWALK WITH AN 8 FOOT PLANTING STRIP ALONG THE SITE'S PROVIDENCE ROAD FRONTAGE. THIS SIDEWALK SHALL LINK TO OTHER INTERNAL SIDEWALKS ON THE SITE.
19. PROPOSED USES FOR THE SITE SHALL INCLUDE THOSE ALLOWED IN THE O-1 DISTRICT, EXCEPT THAT HOTELS OR MOTELS, AND RESTAURANTS (EXCEEDING 3,000 ALLOWED SHA) NOT BE PERMITTED. FURTHERMORE, ANY MEDICAL OFFICE USE (S) SHALL BE RESTRICTED TO A MAXIMUM OF 30,000 SQUARE FEET.
20. BUILDINGS CONSTRUCTED ON THE SITE SHALL BE DESIGNED IN A MANNER WHICH REFLECTS A MODERN STYLE AND SCALE, SPECIFICALLY UTILIZING RESIDENTIAL STYLE DOORS AND WINDOWS, PITCHED ROOF, ETC.
21. THE PETITIONER/DEVELOPER SHALL INSTALL A FIRE HYDRANT WITHIN 750 FEET OF THE MOST REMOTE BUILDING AS A FIRE TRUCK TRAVELS IF SUCH HYDRANT DOES NOT EXIST. FURTHERMORE, IF REQUIRED BY FIRE DEPARTMENT REGULATIONS, FIRE WATERS AND/OR SPRINKLER SYSTEMS SHALL BE INSTALLED IN EACH BUILDING TO OFFSET ANY POTENTIAL MARGINAL WATER SUPPLY IN THE AREA.
22. THE DEVELOPER SHALL DESIGN AND CONSTRUCT THE PROPOSED PUBLIC ROAD THROUGH THE SITE TO CITY OF CHARLOTTE STANDARDS. THE DEVELOPER SHALL DEDICATE SUCH ROAD AND RELATED 60 FOOT RIGHT OF WAY TO THE CITY OF CHARLOTTE FOR OWNERSHIP AND MAINTENANCE
23. EXISTING DRIVES ARE PERMITTED BY RIGHT AS CONSTRUCTED. SEE SHEET 1 OF 4 EXISTING CONDITION. NO MODIFICATIONS WILL BE REQUIRED AS PART OF FUTURE DRIVEWAY PROCESS.

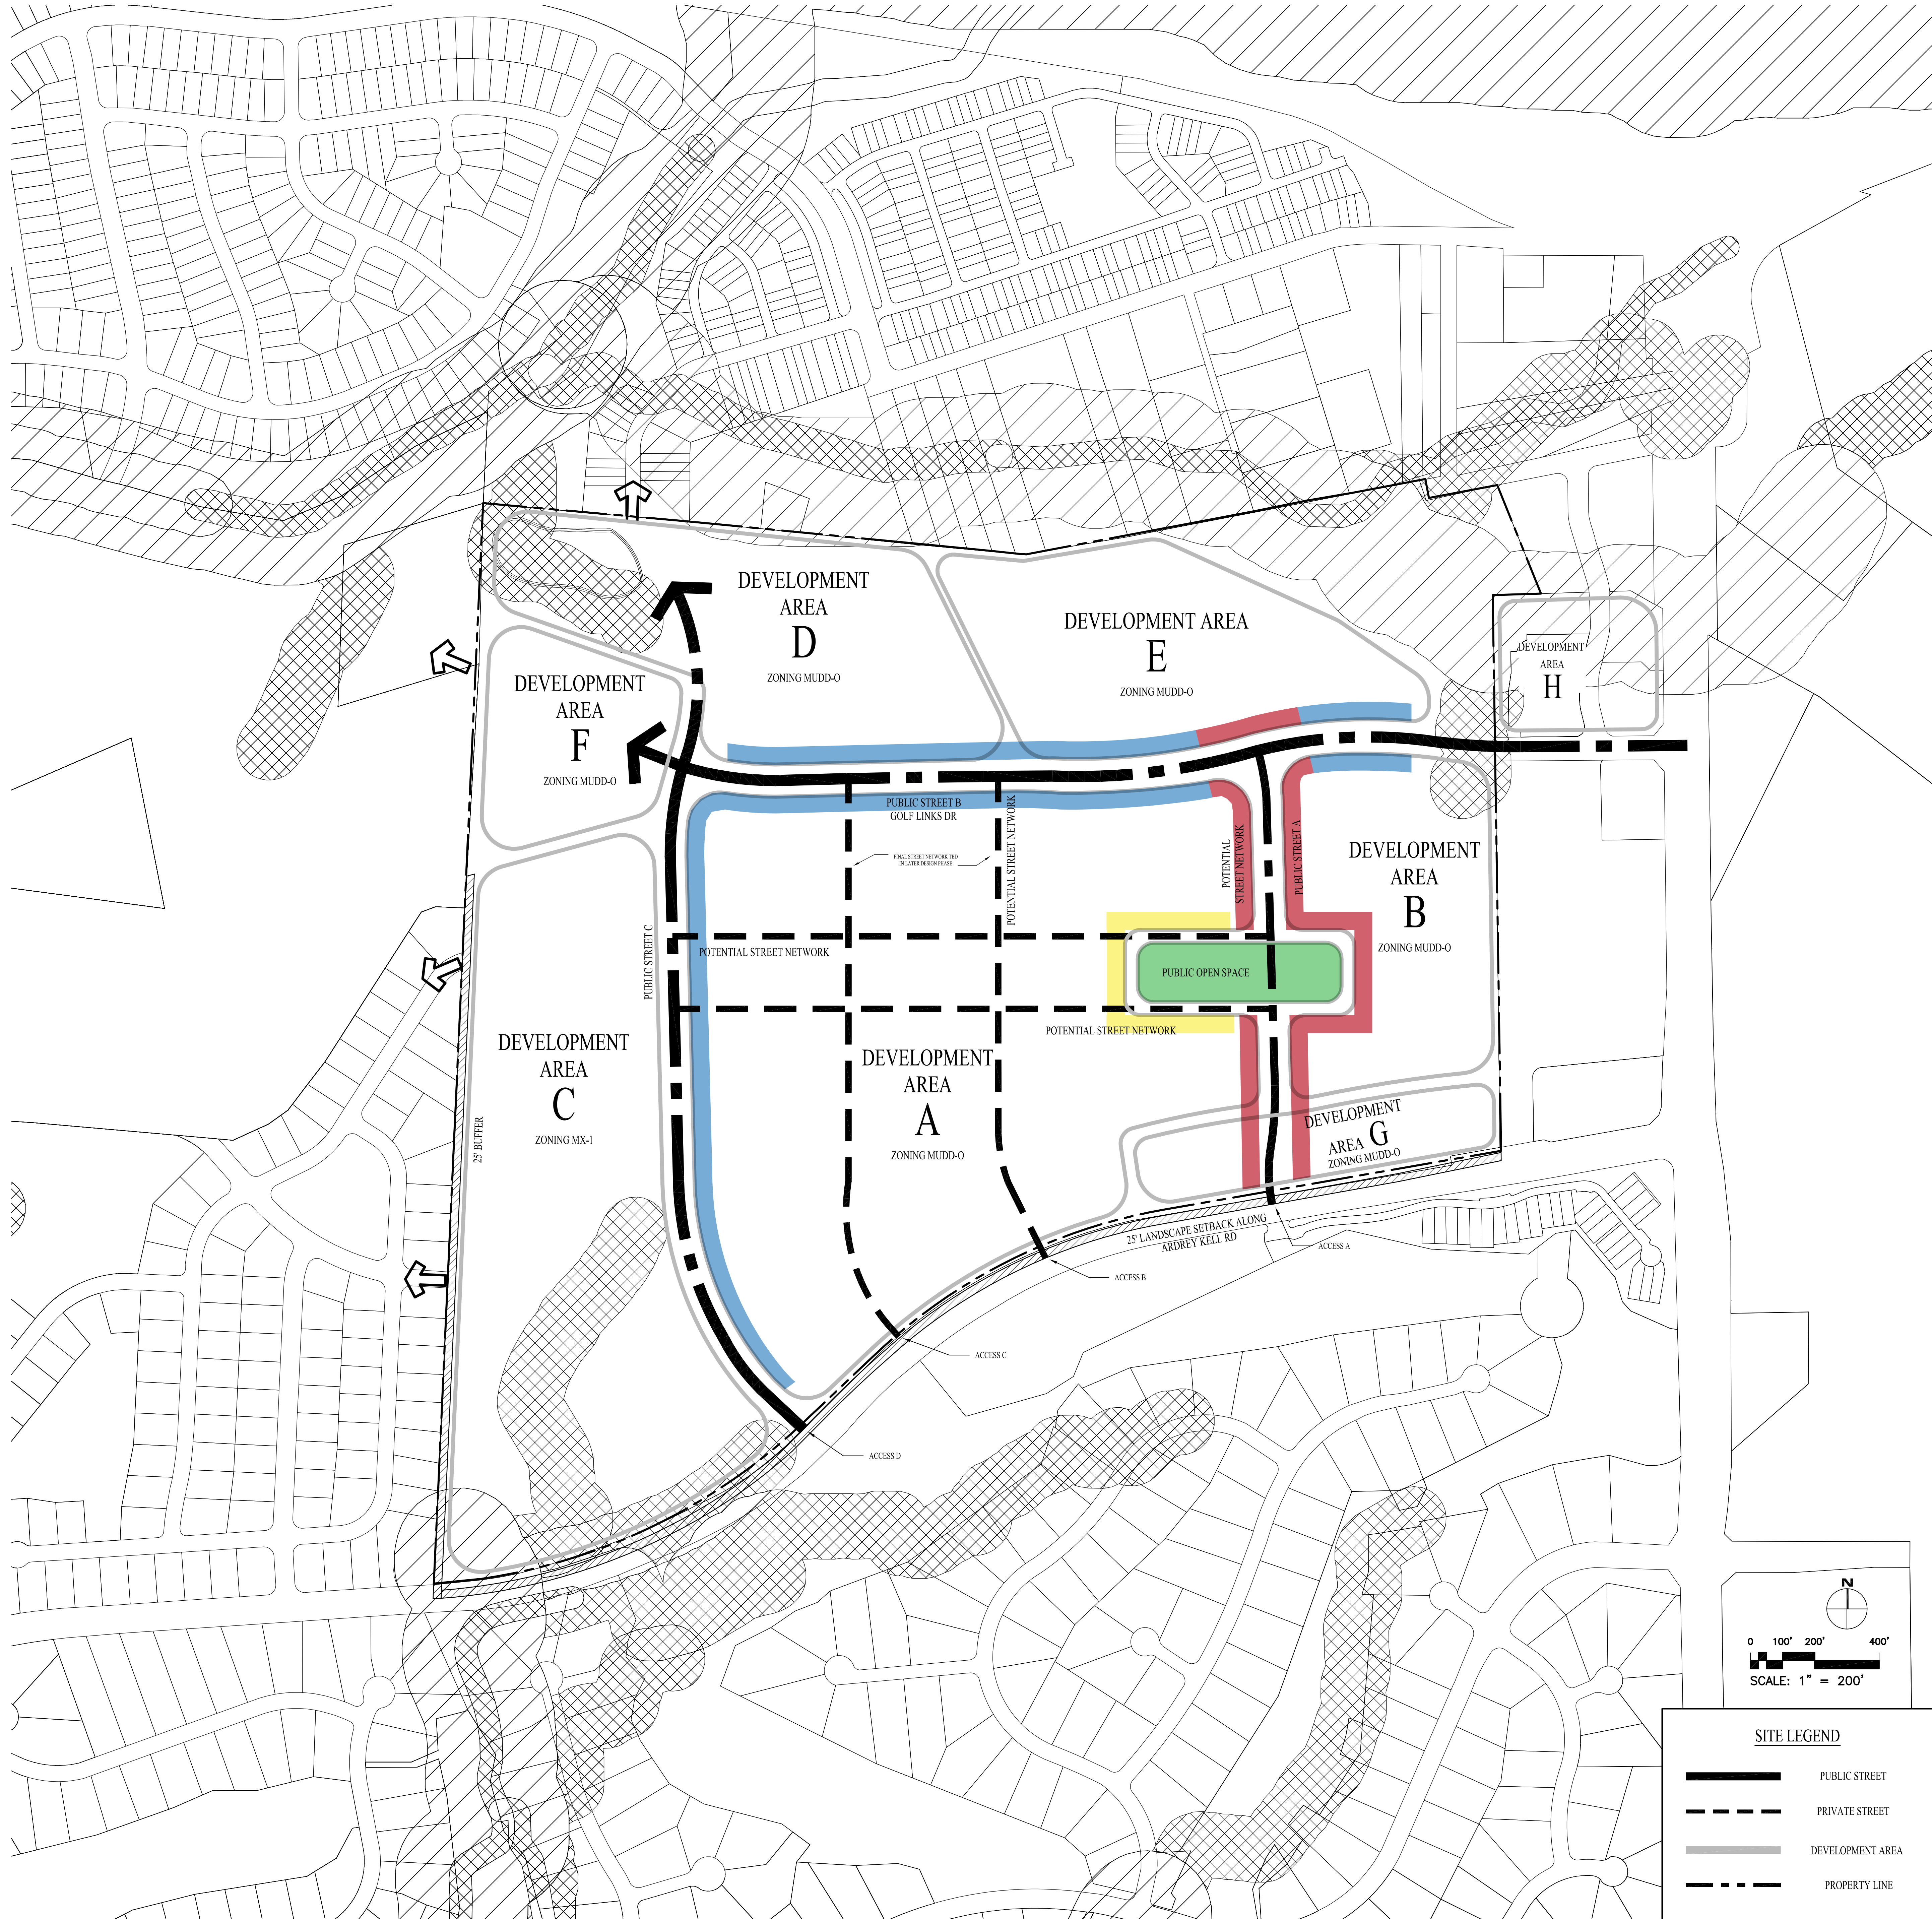

NOTE:
COST OF CURB, GUTTER, AND SIDEWALK ALONG PROVIDENCE ROAD
HAS BEEN PAID INTO THE NCDOT PROJECT FUND FOR INSTALLATION
AS PART OF PROVIDENCE ROAD WIDENING.

This Conceptual Master Plan is a conceptual design illustrating how the Site could be developed. Inasmuch as planning for the proposed redevelopment of the Site has not yet advanced beyond the formative stage, the ultimate layouts of the development proposed, the configurations and placements of open space areas and buildings, and the heights, masses and number of buildings in each Development Area have not yet been determined. As a consequence, the configurations, placements, number and sizes of the buildings and treatment of open space areas depicted on the Conceptual Master Plan and any building designs depicted Renderings are conceptual in nature and therefore are subject to refinements as part of the total design process. They may, therefore, be altered or modified during design development and construction document phases so long as the maximum building envelope lines and intensity limitations established on the Technical Data Sheet are not violated and the proposed alterations or modifications do not exceed the parameters established under these Development Standards and under the Ordinance for the MUDD District.

SCALE: 1" = 200'-0"

SITE LEGEND	
	PUBLIC STREET
	PRIVATE STREET
	DEVELOPMENT AREA
	PROPERTY LINE

VILLAGE MAIN STREET ZONE

- BUILDINGS PULLED TO STREET OR TO THE VILLAGE GREEN ALONG MAIN STREET
- BUILDINGS TO HAVE GROUND FLOOR FENESTRATION ZONE OF 60% OF GROUND FLOOR FACADE AREA
- PRIMARY BUILDING ENTRIES TO BE ON MAIN STREET OR VILLAGE GREEN
- ASIDE FROM ON-STREET PARKING, PARKING AREAS TO BE LOCATED BEHIND AND SCREENED BY STREET FRONTING BUILDINGS (EXCEPT AT PEDESTRIAN WAYS TO PARKING FROM STREET)
- REQUIRED SERVICE AREAS NOT ON STREET AND SCREENED
- MULTI-FAMILY BUILDING FACADES OVER 250' IN LENGTH SHALL BE ARTICULATED TO VISUALLY BREAK DOWN MASSING
- THE BUILDING(S) THAT TERMINATES MAIN STREET TO THE NORTH SHALL HAVE A 30% GROUND FLOOR FENESTRATION ZONE ALONG MAIN STREET AND A PRIMARY PEDESTRIAN ENTRY TO THE STREET
- OTHER THAN ABOVE, ALL BUILDINGS SHALL MEET MUDD STANDARDS AT A MINIMUM

VILLAGE GREEN FRONTAGE

- ALL BUILDINGS ALONG VILLAGE GREEN TO BE PULLED TO STREETS FLANKING THE GREEN TO CREATE A DEFINING EDGE TO THE GREEN
- PRIMARY ENTRIES OF BUILDINGS FRONTING THE GREEN WILL OPEN TO THE GREEN
- PARKING FIELDS SHALL BE BEHIND OR TO THE SIDE OF BUILDINGS FRONTING THE GREEN. ALL PARKING THAT MAY BE VISIBLE FROM THE GREEN SHALL BE SCREENED WITH LANDSCAPING AND WALLS
- MULTI-FAMILY BUILDING FACADES OVER 250' IN LENGTH SHALL BE ARTICULATED TO VISUALLY BREAK DOWN MASSING
- OTHER THAN ABOVE, ALL BUILDINGS SHALL MEET MUDD STANDARDS AT A MINIMUM

GOLF LINKS DRIVE FRONTAGE

- ALL BUILDINGS FRONTING GOLF LINKS DRIVE (EXCEPT PARKING STRUCTURES) SHALL HAVE A PRIMARY PEDESTRIAN ENTRY ON STREET CONNECTING TO GOLF LINKS DRIVE SIDEWALKS
- NO PRIMARY SURFACE PARKING AREAS WILL BE LOCATED BETWEEN BUILDINGS AND THE STREET
- PARKING STRUCTURES ALONG GOLF LINKS DRIVE SHALL BE SETBACK A MINIMUM OF 40' BEHIND THE REQUIRED SIDEWALK. THIS AREA WILL BE LANDSCAPED TO SCREEN THE PARKING STRUCTURE OR FOR RESIDENTIAL UNITS DESIGNED TO ABUT THOSE FACADES
- GROUND LEVEL OF PARKING STRUCTURES WILL BE DESIGNED TO SCREEN THE VIEW OF CARS BY DECORATIVE LOUVERS, GREEN SCREENS, OR OTHER ELEMENTS THAT PROVIDE INTEREST AT GROUND LEVEL. AT UPPER LEVELS, WALLS AT A MINIMUM OF 36" TALL SHALL SCREEN CARS FROM VIEW
- PARKING FIELDS SHALL BE BEHIND OR TO THE SIDE OF BUILDINGS FRONTING THE GREEN. ALL PARKING THAT MAY BE VISIBLE FROM THE GREEN SHALL BE SCREENED WITH LANDSCAPING AND WALLS
- MULTI-FAMILY BUILDING FACADES OVER 250' IN LENGTH SHALL BE ARTICULATED TO VISUALLY BREAK DOWN MASSING
- OTHER THAN ABOVE, ALL BUILDINGS SHALL MEET MUDD
