

## Rezoning Petition 2016-074 Zoning Committee Recommendation

September 28, 2016

**REQUEST** Current Zoning: B-2(CD) (general business, conditional)

Proposed Zoning: TOD-M(CD) (transit oriented development -

mixed-use, conditional)

**LOCATION** Approximately 15 acres located on the east side of North Tryon

Street between Sandy Avenue and Rocky River Road.

(Council District 4 - Phipps)

**SUMMARY OF PETITION** The petition proposes to rezone the vacant property abutting the

Newell South neighborhood to allow all uses in the TOD-M zoning district. Uses allowed in the TOD-M (transit oriented development – mixed-use) district include office, residential, retail, and civic uses.

PROPERTY OWNER PETITIONER

AGENT/REPRESENTATIVE David

COMMUNITY MEETING

STATEMENT OF CONSISTENCY

McKinney Holdings NC II, LLC McKinney Holdings NC II, LLC

David J. McKinney

Meeting is required and has been held. Report available online.

- The Zoning Committee found this petition to be consistent with the *University City Area Plan*, based on information from the staff analysis and the public hearing, and because:
  - The petition is consistent with the *University City Area Plan*,
    which recommends transit oriented development organized on
    a new network of streets and blocks designed to maximize
    access to the station, support walkability, and interconnect to
    adjacent surrounding development.
- Therefore, this petition was found to be reasonable and in the public interest, based on information from the staff analysis and the public hearing, and because:
  - The subject site is located within a ½ mile walk of the University City Boulevard Transit Station on the LYNX Blue Line Extension: and
  - The University City Area Plan recommends transit oriented development for the site. A mix of residential and office uses are appropriate and retail could be considered within a vertically mixed use building; and
  - The TOD-M (transit oriented development mixed-use) zoning will allow these uses; and
  - The University City Area Plan also recommends a new network of streets and blocks to support transit oriented development around the station including the alignment and design of a new "Avenue" and "Local" streets parallel to North Tryon Street;
  - These streets represent critical infrastructure necessary for the successful development of this unique station area which includes significant tracts of undeveloped land with no street connectivity; and
  - The request shows the recommended street network and commits to dedicate the streets as public right-of-way; and
  - The request also proposes to donate permanent and temporary easements along the site's Rocky River frontage to accommodate the City's Comprehensive Neighborhood Improvement Program project;

By a 7-0 vote of the Zoning Committee (motion by Labovitz seconded by Wiggins).

ZONING COMMITTEE ACTION

The Zoning Committee voted 7-0 to recommend **APPROVAL** of this petition.

VOTE Motion/Second: Labovitz / Majeed

Yeas: Eschert, Labovitz, Lathrop, Majeed, Spencer,

Watkins, and Wiggins

Nays: None Absent: None Recused: None

ZONING COMMITTEE

DISCUSSION

Staff provided an update of the petition noting that there are no outstanding issues. Staff noted that this petition is consistent with the

University City Area Plan. There was no further discussion.

**STAFF OPINION** Staff agrees with the recommendation of the Zoning Committee.

# FINAL STAFF ANALYSIS (Pre-Hearing Analysis online at <a href="https://www.rezoning.org">www.rezoning.org</a>)

#### PLANNING STAFF REVIEW

## Proposed Request Details

The site plan accompanying this petition contains the following provisions:

- Shows an internal street network to be constructed and general locations where the internal streets will connect to existing or future streets, as envisioned in the *University City Area Plan*. Proposed roadway connection points are as follows:
  - Connection Point A: one connection to West Rocky River Road;
  - Connection Point B: one connection to either or both adjacent tax parcels 049-181-08 and 049-181-09, with the connection to be aligned to intersect with West Rocky River Road at its intersection with Twitter Lane;
  - Connection Point C: one connection to North Tryon Street at a point approximately opposite of the existing road connection with North Tryon Street and Stetson Drive; and
  - Connection Point D: one connection to the remainder of tax parcel 049-181-04, which is a
    part of the subject property located at the approximate midpoint between the right-of-way
    of North Tryon Street and the 100-foot Undisturbed Post Construction Buffer, plus or minus
    150 feet.
- Commits to donation of permanent and temporary easements along the site's Rocky River frontage to accommodate the City's active CNIP (Comprehensive Neighborhood Improvement Program) project scope.
- All new proposed roadways will be constructed to public street standards and dedicated as public streets.

#### Public Plans and Policies

- The *University City Area Plan* (2015) recommends transit oriented development for this site, located within a ½ mile walk distance from the University City Boulevard Transit Station on the LYNX Blue Line Extension.
- Specific mobility policies for this site include:
  - Policy 1a (11): Provide a new street parallel to North Tryon Street (between Interstate 85 connector and Rocky River Road West). This street provides parallel connectivity along the North Tryon Street corridor and supports new development opportunities. It should be designed as an "Avenue" and should include bike lanes, wide sidewalks and on-street parking where warranted by adjacent land uses.
  - Policy 1a (12): Provide an additional new street parallel to North Tryon Street between Periwinkle Hill Avenue and Rocky River Road West as an extension of Twitter Lane. It should be designed as a "Local" street including wide sidewalks and on-street parking where warranted by adjacent land uses.
  - Policy 1a (13): Develop an interconnected network of local streets, with typical block lengths
    of 400 feet to supplement the new streets described above.

# TRANSPORTATION CONSIDERATIONS

This site is on the east side of North Tryon Street, a major thoroughfare that carries the LYNX Blue Line Extension. The current site plan shows the connections and parallel routes of the future transportation network, as envisioned in the *University City Area Plan*, which must be in place to support transit oriented development. Additionally, the current site plan commits to the donation of permanent and temporary easements along the site's Rocky River frontage to accommodate the City's active Comprehensive Neighborhood Improvement Program (CNIP) project scope.

#### **DEPARTMENT COMMENTS** (see full department reports online)

- Charlotte Area Transit System: No issues.
- Charlotte Department of Neighborhood & Business Services: No comments received.
- Charlotte Fire Department: No issues.
- Charlotte-Mecklenburg Schools: The district allows a variety of uses; therefore, the impact on local schools cannot be determined.
- Charlotte-Mecklenburg Storm Water Services: No issues.
- Charlotte Water: Charlotte Water has water system availability for the rezoning boundary via an existing 36-inch water main located along North Tryon Street. There is also system availability for the rezoning boundary through existing 12-inch and eight-inch water distribution mains. Sewer system availability for the rezoning boundary is provided via an existing eight-inch gravity sewer mains located along West Rocky River Road and an existing eight-inch gravity sewer main located in the southern portion of parcel 049-18-104.
- Engineering and Property Management: No issues.
- Mecklenburg County Land Use and Environmental Services Agency: No issues.
- Mecklenburg County Parks and Recreation Department: No issues.
