

## Petition No: 2018-036

### IMPACT UNDER CURRENT ZONING

*Number of housing units allowed under current zoning:* The portion of the subject property is developed with three single family detached dwellings, which are legal nonconforming uses. The conventional I-1 zoning district allows all uses permitted in the I-1 district.

*Number of students potentially generated under current zoning:* 0 students

### IMPACT OF THE PROPOSED DEVELOPMENT

*Proposed Housing Units:* The conventional R-8 district request seeks to allow uses permitted in the district, which includes single-family detached dwellings, duplex, triplex and quadraplex units. The approximately 0.41 acres zoned R-8 would allow approximately 3.28 dwellings.

*CMS Planning Area:* 1,2,3

Average Student Yield per Unit: 0.5195

This development may add 1 student(s) to the schools in this area.

### RECOMMENDATION

Adequacy of existing school capacity in this area is a significant problem. We are particularly concerned about rezoning cases where school utilization exceeds 100% since the proposed development may exacerbate those situations. Approval of this petition may increase overcrowding and/or reliance upon mobile classrooms at the school listed above.

The total estimated capital cost of providing the additional school capacity for this new development is \$20,000 calculated as follows:

Elementary School: **1**x \$20,000 = \$20,000

CMS recommends that the petitioner/developer schedule a meeting with staff to discuss mitigation of the cost to improve the adequacy of school capacity at the potentially affected school.
