## Revision Log:

Date	Description
08-14-18	First Review
09-18-18	Second Review

## General Review Information

The site is at the unsignalized intersection of The Plaza (major collector) and McClintock Road (local) and is located in a corridor inside Route 4. The site is within the limits of the Plaza-Central Pedscape Plan.

*CDOT's review of this rezoning petition is intended to ensure consistency with the Transportation Action Plan (TAP) which seeks to ensure that the City's transportation network supports current and future land uses and includes streets that provide safe and comfortable mobility for motorists, pedestrians, bicyclists, and transit users.*

*This document is primarily for communication to Planning Department staff as part of the overall City staff analysis of the rezoning petition and includes an overall summary of the case from a transportation perspective, information on trip generation, and resolved or outstanding site plan concerns. Additional advisory information about the driveway permit process is provided for information only.*

Based on our review of the petition, we offer the following information for your consideration.

## Transportation Summary

This site is located a major thoroughfare and local road. The site commits to installing the requested sidewalk and planting strip widths. The petitioner also commits to installing the requested offsite pedestrian crossing at Hamorton Place and The Plaza.

## Trip Generation

Scenario	Land Use	Intensity	Trip Generation (vehicle trips/day)	Source
Existing Use	Office	8,130 sf	200	Tax Record
Entitlement with Current Zoning	Retail (0.31 ac of B-2)	4,650 sf	920	General Guidance from Planning
Proposed Zoning	0.31 ac of MUDD-O	Too many uses to determine		Site Plan: 09-10-18

## Outstanding Issues

~~Strikeout~~ = Not an outstanding issue

- ~~**Curbline**~~ The proposed zoning district has a setback measured from back of the existing or proposed future curbline. The location of the future back of curb is in its existing location.
- ~~**Traffic Study**~~ A Traffic Impact Study/Transportation Technical Memorandum is not necessary for the complete review of this petition.

# Rezoning Transportation Analysis

Petition Number: 2018-086

General Location Identifier: 12901201

3. ~~The petitioner should revise the site plan and conditional note(s) to remove Optional Provision section 3.A. due to area plan cross section and site is in a pedestrian overlay.~~
4. ~~The petitioner should revise the site plan and conditional note(s) to construct a 10' planting strip and 10' sidewalk along The Plaza per the area plan and construct an 8' planting strip and an 8' sidewalk along McClintock Road due to Ped Overlay.~~
5. ~~The site plan's parking calculations shows 12 parking spaces are provided, but the site plan only shows 11 spaces. The site plan and conditional note(s) should be updated with correct number of parking spaces provided.~~
6. ~~The petitioner should revise conditional notes to either contribute 50k for resurfacing project in area or construct pedestrian refuge on The Plaza. (location to be determined prior to public hearing)~~
7. ~~The petitioner should revise the site plan to add a note specifying dedication and fee simple conveyance of all rights of way to the City before the site's first building certificate of occupancy is issued. CDOT requests right of way set at 2' behind back of sidewalk where feasible.~~
8. ~~The petitioner should revise the site plan to add a note specifying all transportation improvements will be approved and constructed before the site's first building certificate of occupancy is issued. The petitioner may phase transportation improvements if said improvements and phasing are explicitly described in site plan notes.~~
9. **Resolved** Sample format for comment that is resolved

## Advisory Information

The following are requirements of the developer that must be satisfied prior to driveway permit approval. We recommend that the petitioner reflect these on the rezoning plan as appropriate.

1. The setback for this district is measured from the back of the existing or future curbline as determined by CDOT and Planning during the permitting process.
2. According to the City of Charlotte's Driveway Regulations, CDOT has the authority to regulate/approve all private street/driveway and public street connections to the right-of-way of a street under the regulatory jurisdiction of the City of Charlotte.
3. Adequate sight triangles must be reserved at the existing/proposed street entrance(s). Two 35' x 35' sight triangles (and two 10' x 70' sight triangles on North Carolina Department of Transportation on NCDOT maintained streets) are required for the entrance(s) to meet requirements. All proposed trees, berms, walls, fences, and/or identification signs must not interfere with sight distance at the entrance(s). Such items should be identified on the site plan.
4. The proposed driveway connection(s) to public streets will require a driveway permit(s) to be submitted to CDOT (and the North Carolina Department of Transportation on NCDOT maintained streets) for review and approval. The exact driveway location(s) and type/width of the driveway(s) will be determined by CDOT during the driveway permit process. The locations of the driveway(s) shown on the site plan are subject to change in order to align with driveway(s) on the opposite side of the street and comply with City Driveway Regulations and the City Tree Ordinance.
5. All proposed commercial driveway connections to a future public street will require a driveway permit to be submitted to CDOT for review and approval.
6. Any fence or wall constructed along or adjacent to any sidewalk or street right-of-way requires a certificate issued by CDOT.
7. A Right-of-Way Encroachment Agreement is required for the installation of any non-standard item(s) (irrigation systems, decorative concrete pavement, brick pavers, etc.) within a proposed/existing City maintained street right-of-way by a private individual, group, business, or homeowner's/business association. An encroachment agreement must be approved by CDOT prior to the construction/installation of the non-standard item(s). Contact CDOT for additional information concerning cost, submittal, and liability insurance coverage requirements.
