**Comments:**

Summary: Water and sewer service is accessible for this rezoning boundary.

Charlotte Water has accessible water system infrastructure for the rezoning boundary via an existing 6-inch water distribution main located along East 26<sup>th</sup> Street, and via an existing 8-inch distribution main located along North Davidson Street.

Charlotte Water has accessible sanitary sewer system infrastructure for the rezoning boundary via an existing 8-inch gravity sewer main located along East 26<sup>th</sup> Street and North Davidson Street, and via an existing 12-inch gravity main located within the rezoning boundary.

Development is encouraged to contact Installation Development Services at (704) 336-5499 to review service connection design requirements and City Ordinances (e.g., backflow, separate meter Ordinance, public/private pipeline extensions). Comments: Submit application to the Capacity Assurance Program. Has direct access to water/sewer. There is an existing 30" sewer line running across parcel 08305204, no permanent structures are to be located within the easement. If public Road is extended, you may need to extend public water. Contact our New Services Department for water/sewer services.

Reservation of sanitary sewer system capacity through the Charlotte Water's Capacity Assurance Program is the responsibility of the customer/development. Contact the New Services Group at (704) 432-2854 for further information on reserving capacity up to 24 months.

This sheet indicates the findings of a cursory review of Utilities System Information for the presence or absence of public water or wastewater infrastructure only. The findings do not imply available capacity in water and sanitary sewer lines, pump stations, or treatment facilities. Reservation of capacity is achieved through the Charlotte Water's Capacity Assurance Program.
