REGULAR AGENDA

Case no. 06-037 (APPEAL) – Pine Island Country Club – Kenneth McMichael – Tax Parcel Number 031-391-01, appealing the Zoning Administrator’s decision that a maintenance facility is considered a service area and therefore is not required to meet the 100 foot distance separation from residences. **Code Section 9.203 (13)(b)** states that off-street parking and service areas and outdoor recreational facilities will be separated by a Class C buffer from any adjacent property located in a residential zoning district or used for residential purposes. However, outdoor recreational facilities and associated parking located on a lot within a planned development shall provide a Class C buffer only along the portion of the lot which forms part of the external boundary of the planned development. **Code Section 9.203 (13)(c)** states that no outdoor recreation facilities such as swimming pools, tennis courts, picnic shelters, etc. shall be located within 100 feet of any lot located in a residential district or adjoining residential use. However, outdoor recreational facilities located on a lot within the interior portion of a planned development may be located a minimum of 20 feet from an adjacent lot within the planned development, but must maintain a 100-foot separation from the external project boundaries of the planned development when abutting a residential zoning district or residential use; and for all outdoor recreational facilities not in a planned development, all outdoor lighting will be screened in such a way that the source can not be seen from any adjacent property.
