

RECOMMENDATION

We have the following comments that are critical to CMS' support of this petition:

Adequacy of existing school capacity in this area is a significant problem. We are particularly concerned about rezoning cases where school utilization exceeds 100% since the proposed development will exacerbate this situation. Approval of this petition will increase overcrowding and/or reliance upon mobile classrooms at the schools listed below.

The total estimated capital cost of providing the additional school capacity for this new development is \$480,000, calculated as follows:

Elementary School: **24** x \$20,000 = \$480,000

CMS recommends the petitioner schedule a meeting with staff to discuss any opportunities that the petitioner/developer may propose to improve the adequacy of school capacity in the immediate area of the proposed development.

TOTAL IMPACT FROM PROPOSED DEVELOPMENT

Proposed Housing Units: 80 single-family residential units (for sale) under UR-3 zoning ("worst-case scenario")

CMS Planning Area: 13

Average Student Yield per Unit: 0.5351

This development will add approximately 43 students to the schools in this area.

The following data is as of 20th Day of the 2006-07 school year.

<i>Schools Affected</i>	<i>Capacity Without Mobiles</i>	<i>20th Day, 2006-07 Enrollment (non-ec)</i>	<i>Additional Students As a result of this development</i>	<i>Total Enrollment As a result of this development</i>	<i>20th Day, 2006-07 Utilization (Without Mobiles)</i>	<i>Utilization As a result of this development (Without Mobiles)</i>	<i>Number of Mobiles</i>
HAWK RIDGE ES	682	1392	24	1416	204%	208%	34
COMMUNITY HOUSE MS	1210	1243	9	1252	103%	103%	0
ARDREY KELL HS	1880	1131	10	1141	60%	61%	0

*Elementary School assignment for the proposed development for 2007-2008 school year is New Elon Park (housed at New Flat Branch). The data shows the impact on Hawk Ridge ES for 2006-2007 school year and is not applicable for 2007-2008

INCREMENTAL IMPACT FROM PROPOSED DEVELOPMENT*

Existing number of housing units allowed: 53 single family units under R-3 zoning

Number of students potentially generated under current zoning: 28 (16 elementary, 6 middle and 6 high school student)

The development allowed under existing zoning would generate 28 students, while the development allowed under the proposed zoning will produce only 43 students. Therefore, the net change in the number of students generated from existing zoning to proposed zoning is 15.

As requested, we are also providing information regarding the difference in the number of potential students from the existing zoning to the proposed zoning. Please note that this method of determining potential numbers of students from an area underestimates the number of students CMS may gain from the new development.
