

## ENGINEERING AND PROPERTY MANAGEMENT DEPARTMENT

### MEMORANDUM

**Date:** July 11, 2007  
**To:** Keith MacVean  
Planning Commission  
**From:** Alice Christenbury  
Land Development Services  
**Subject:** Rezoning Petition No. 2007-103, 0 Johnston Rd.

---

#### **General Site Plan Requirements**

The EPM Land Development Services Division has reviewed the site plan submitted in connection with the subject rezoning petition and has the following comment.

- Remove Conditional Note 5 on RZ-1 and add the following notes to the rezoning site plan and/or related rezoning documents:
- "Adequacy of existing stormwater detention/pond facility to service existing and proposed impervious shall be reviewed and approved upon formal development plan submittal."
- "The petitioner acknowledges that other standard development requirements imposed by other city ordinances, standards, policies, and appropriate design manuals will exist. Those criteria (for example, those that require buffers, regulate streets, sidewalks, trees, stormwater, and site development, etc.), will apply to the development site. This includes chapters 6, 9, 12, 17, 18, 19, 20, and 21 of the city code. Conditions set forth in this petition are supplemental requirements imposed on the development in addition to other standards. Where conditions on this plan differ from ordinances, standards, policies, and approaches in existence at the time of formal engineering plan review submission, the stricter condition or existing requirements shall apply."
- "Location, size, and type of any Stormwater Management Systems depicted on rezoning site plan is subject to review and approval with full development plan submittal and is not implicitly approved with this rezoning. Adjustments may be necessary in order to accommodate actual stormwater treatment requirements and natural site discharge points."
- Add the two previously approved rezoning petition numbers to site plan: #99-88 and #02-06. List all previously approved rezoning notes with a clear indication of the revisions requested by rezoning petition #07-103.
- The possibility of wetlands and/or jurisdictional streams has been determined. Please add a note to the plans that reads:
- "Any jurisdictional wetlands or streams, if present, need to be protected or proper environmental permits obtained prior to their disturbance. For 401 permits contact DEHNR. For 404 permits contact the Army Corps of Engineers."
- Contact John Geer for any questions at 704-336-4258.
- We request that any revisions or changes be submitted to the Land Development Division.

- After zoning approval, pre-submittal meetings are available to discuss specific requirements.

Should you need additional information, contact Susan Tolan at (704)353-0769.

CC: Site Inspector James Mccullough

**NOTE:** Preliminary (rezoning petition) comments are based on conceptual and/or preliminary drawings and project information.
