Development Standards

Unless more stringent standards are established by the Technical Data Sheet or these Development Standards, all development standards established under the City of Charlotte Zoning Ordinance (the "Ordinance") for the R-8 MF zoning district shall be followed in connection with development taking place on the Site. The development depicted on the Technical Data Sheet is intended to reflect the arrangement of proposed uses on the Site, but the final configuration, placement and size of individual Site elements may be altered or modified within the limits prescribed by the Ordinance and the standards established by the Technical Data Sheet and these Development Standards during design development and construction phases. Street layouts may be modified to accommodate final building locations.

Permitted Uses

The Site may be devoted to a maximum of 139 for sale or for rent single family attached townhome dwelling units and to any incidental or accessory use in connection therewith which is permitted by right or under prescribed conditions in the R-8 MF zoning district.

1. The Petitioner shall establish a 50 foot Class C buffer along those portions of the Site's eastern, southern, western and northern boundary lines that are more particularly depicted on the Technical Data Sheet, which buffer shall conform to the standards of Section 12.302 of the Ordinance. This 50 foot Class C buffer shall be provided, however, in the event that the existing vegetation does not meet the tree and shrub requirements of a Class C buffer, the Petitioner may install supplemental plantings to bring the Class C buffer into compliance with these requirements. Notwithstanding anything contained herein to the contrary, the width of this 50 foot Class C buffer may not be reduced.

2. The Petitioner reserves the right to utilize existing trees and natural vegetation to meet the planting requirements for all buffers on the Site.

Setbacks, SideYards and Rear Yards

1. All principal structures constructed on the Site shall satisfy or exceed the setback, side yard and rear yard requirements under the Ordinance for the R-8 MF zoning district as depicted

2. Garages shall be setback a minimum of 20 feet from the back of the sidewalk or the back of curb where a sidewalk is not installed.

Common Open Space

1. Common open space shall be provided in various locations as depicted on the Technical Data Sheet. At a minimum, 50% of the Site shall be devoted to common open space.

For purposes of calculating the amount of required common open space, the amenity area, the tree save areas, the buffer areas, the SWIM buffer areas, the wetlands areas and the detention pond shall be

3. An amenity area shall be provided in the location generally depicted on the Illustrative Schematic Plan. The amenity area will contain at least two of the following improvements, with the choice of which two improvements to be in the sole discretion of the Petitioner: community clubhouse, pool, tennis court, sport court, putting green, tot lot/playground and a BBQ-picnic area.

Screening and Landscape Areas

adjoining parcel of land will be screened from view by a solid-enclosure with gates. Tree Ordinance

particularly depicted on the Technical Data Sheet. 2. Development of the Site will comply with the applicable provisions of the City of Charlotte Tree

Development of the Site will comply with the applicable pro-Ordinance as of the date of the approval of this Rezoning Petition.

S.W.I.M. Buffers / Wetlands

ParkingVehicular and bicycle parking will satisfy the minimum standards established under the Ordinance.

1. All development on the Site will comply with the applicable provisions of the City of Charlotte S.W.I.M.

Ordinance as of the date of the approval of this Rezoning Petition. 2. Any jurisdictional wetlands or streams, if present, need to be protected or proper environmental

permits obtained prior to their disturbance. For 401 permits contact NCDENR. For 404 permits contact the Army Corps of Engineers.

Architectural Commitments

1. The permitted exterior building materials for the single family attached townhome buildings to be constructed on the Site shall be brick, stone and similar masonry products, stucco, wood and wood products, shake and hardi-plank and fiber cement board. Notwithstanding the foregoing, vin may be utilized on the soffits of the single family attached townhome buildings and the trim areas. Except as provided above, vinyl shall not be a permitted exterior building material.

2. Notwithstanding paragraph 1 above, vinyl fences may be installed on the Site.

3. Each single family attached townhome dwelling unit shall have a two car garage.

Flat panel garage doors may not be utilized on the garages. Lighting

1. Decorative, pedestrian scale, freestanding lighting fixtures will be installed throughout the Site. The decorative, pedestrian scale, freestanding lighting fixtures will be uniform in design, and the final spacing of such lighting fixtures shall be determined by the Petitioner.

2. The maximum height of the decorative, pedestrian scale, freestanding lighting fixtures installed on the Site, including the base, shall not exceed 15 feet.

3. All exterior light fixtures (except street lights along public or private streets) shall be capped and fully shielded and the illumination downwardly directed so that direct illumination does not extend past any property line of the Site.

All signs placed on the Site will be erected in accordance with the requirements of the

Access Points / Sidewalks . The number of vehicular access points to the Site shall be limited to the number depicted on the

Technical Data Sheet. 2. The placement and configuration of each access point are subject to any minor modifications required

to accommodate final site and architectural construction plans and designs and to any adjustments required for approval by the Charlotte Department of Transportation and/or the North Carolina Department of Transportation. 3. As depicted on the Technical Data Sheet, an 8 foot planting strip and a 5 foot sidewalk shall be

installed on both sides of the public street to be located within the Site, and a 5 foot sidewalk and a 5 foot planting strip shall be installed on one side of each private street to be located within the Site.

Dumpster, Compactor and Recycling This development shall meet all requirements as stated in Chapters 9 and 12 of the Charlotte City Code regarding solid waste dumpster, compactor and recycling areas.

Fire Protection

Adequate fire protection in the form of fire hydrants will be provided to the City of Charlotte Fire Code's specifications. Plans for each townhome building will be submitted to the Fire Marshal's office for approval before the construction of that building commences.

Storm Water Management

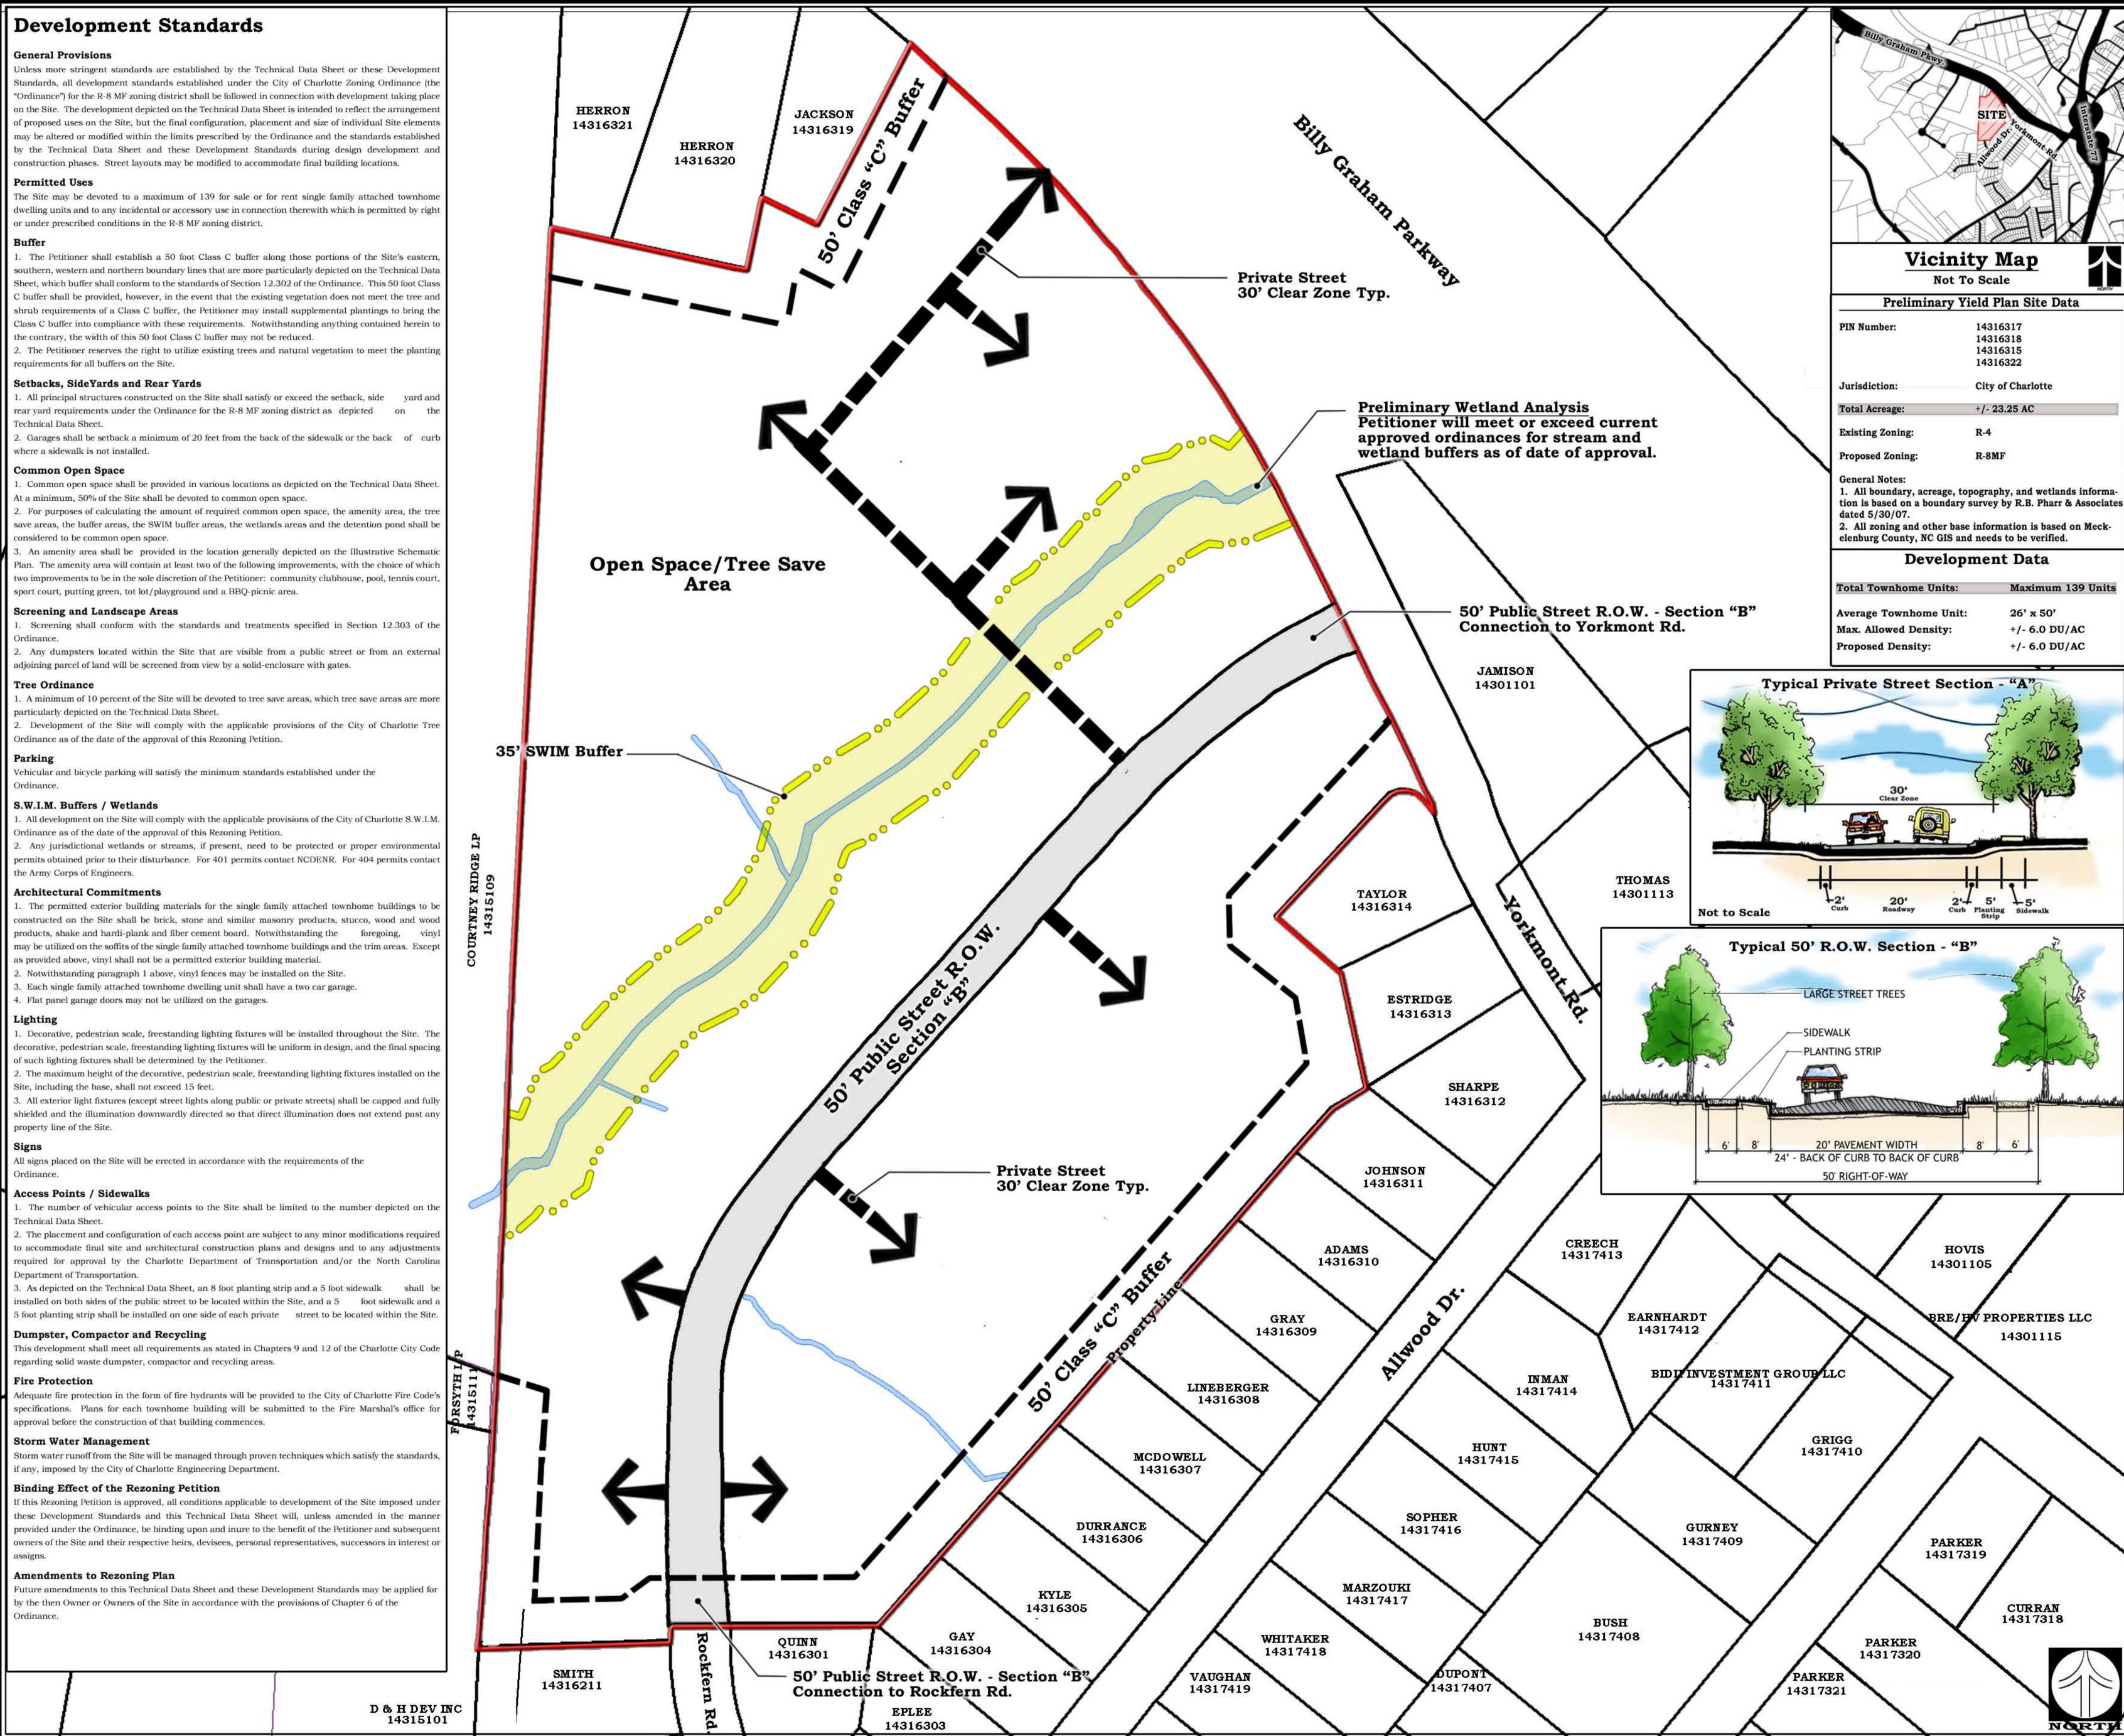

Storm water runoff from the Site will be managed through proven techniques which satisfy the standards, if any, imposed by the City of Charlotte Engineering Department.

Binding Effect of the Rezoning Petition

If this Rezoning Petition is approved, all conditions applicable to development of the Site imposed under these Development Standards and this Technical Data Sheet will, unless amended in the manner provided under the Ordinance, be binding upon and inure to the benefit of the Petitioner and subsequent owners of the Site and their respective heirs, devisees, personal representatives, successors in interest or

Amendments to Rezoning Plan

Future amendments to this Technical Data Sheet and these Development Standards may be applied for by the then Owner or Owners of the Site in accordance with the provisions of Chapter 6 of the
