

ENGINEERING AND PROPERTY MANAGEMENT DEPARTMENT

MEMORANDUM

Date: December 14, 2007
To: Keith MacVean
Planning Commission
From: Alice Christenbury
Land Development Services
Subject: Rezoning Petition No. 2008-026, 403 S. Bruns Ave.

General Site Plan Requirements

The EPM Land Development Services Division has reviewed the site plan submitted in connection with the subject rezoning petition and has the following comment.

- Add the following note to the rezoning site plan and/or related rezoning documents:
"The petitioner acknowledges that other standard development requirements imposed by other city ordinances, standards, policies, and appropriate design manuals will exist. Those criteria (for example, those that require buffers, regulate streets, sidewalks, trees, stormwater, and site development, etc.), will apply to the development site. This includes chapters 6, 9, 12, 17, 18, 19, 20, and 21 of the city code. Conditions set forth in this petition are supplemental requirements imposed on the development in addition to other standards. Where conditions on this plan differ from ordinances, standards, policies, and approaches in existence at the time of formal engineering plan review submission, the stricter condition or existing requirements shall apply."
- "Location, size, and type of any Stormwater Management Systems depicted on rezoning site plan is subject to review and approval with full development plan submittal and is not implicitly approved with this rezoning. Adjustments may be necessary in order to accommodate actual stormwater treatment requirements and natural site discharge points."
- We request that any revisions or changes be submitted to the Land Development Division.
- After zoning approval, pre-submittal meetings are available to discuss specific requirements.

Should you need additional information, contact Brendan Smith at (704)336-4556.

CC: Site Inspector Gary Benner

NOTE: Preliminary (rezoning petition) comments are based on conceptual and/or preliminary drawings and project information.
