January 27, 2009

This is the Community Meeting Report by The Isaacs Group on behalf of Bodnar Investment Group, Inc. for the January 12th, 2009 meeting held at the Steele Creek Public Library in the Community Room that began at 5:00 pm. and ended at 7:00 pm. Beginning December 30th, 2009 the attached notice letter was mailed or hand delivered to the attached list of property owners and individuals as provided by the Charlotte Planning Department. The attendance list shows that the only people in attendance were a representative from the Steele Croft Farm Apartments Association and a representative from the Wiltshire Manor Homeowners Association. Both representatives discussed their concerns with us on the proposed site layout, building orientation and elevations, increased traffic from the development, storage of materials, existing buffers and pedestrian access to the building from the adjacent restaurant and Public Library. This meeting report is accurate to the best of my knowledge.

Sincerely,

Patrick Watkins, Project Manager
The Isaacs Group
