

MECKLENBURG COUNTY

Land Use and Environmental Services Agency

May 30, 2013

Ms. Penelope Cothran Charlotte-Mecklenburg Planning Commission 600 East Fourth Street Charlotte, North Carolina 28202

Re: Rezoning Petition 2013-059

Approximately 6.0 acres located on north side of the Seaboard Coast Line Railroad between Louise Avenue and Hawthorne Lane

Dear Ms. Cothran,

Representatives of the Air Quality (MCAQ), Groundwater & Wastewater Services (MCGWS), Solid Waste (MCSW), Storm Water Services (MCSWS), and Water Quality (MCWQ) Programs of the Mecklenburg County Land Use and Environmental Services Agency (LUESA) have reviewed the above referenced rezoning petition.

Solid Waste Groundwater & Wastewater Services

Recommendations and/or Ordinance Requirement Reminders

Air Quality

Development of this site may require submission of an asbestos Notification of Demolition and Renovation due to possible demolition or relocation of an existing structure or renovation of a load-bearing wall in an existing structure. This notification is required in accordance with the Mecklenburg County Air Pollution Control Ordinance (MCAPCO) Regulation 2.1110 - Subparagraph (a) - "National Emission Standards for Hazardous Air Pollutants". A letter of notification and the required forms will be mailed directly to the parcel owner.

Storm Water Services

S.W.I.M. Stream Buffers

S.W.I.M. stream buffer requirements apply as described on the following website: http://charmeck.org/stormwater/regulations/Pages/SWIMOrdinances.aspx. In addition, the buffer requirements specified in the post-construction storm water ordinance, as described on the website indicated above, also apply. In the event that different requirements occur in the post-construction ordinance compared to the S.W.I.M. stream buffer ordinance, the more stringent will apply.

Impaired Streams:

The property represented in this rezoning drains to surface waters listed on North Carolinas Department of Natural Resources 303(d) list of impaired streams. Little Sugar Creek is listed for copper, ecological/biological integrity of benthos, and fecal coliform due to pollution discharges. By properly controlling pollutants both during and after construction you can help restore these surface waters. More information on North Carolina's impaired waters and 303(d) list can be found at http://portal.ncdenr.org/web/wq/ps/mtu/assessment.

Please contact the staff members who conducted the reviews if you have any questions. The reviews were conducted by, Jason Rayfield (Jason.Rayfield@mecklenburgcountync.gov) with MCAQ, Dennis Tyndall (Dennis.Tyndall@mecklenburgcountync.gov) with GWS, Joe Hack (Joe.Hack@mecklenburgcountync.gov) with MCSW, Bill Tingle (Bill.Tingle@mecklenburgcountync.gov) with MCSWS, and Rusty Rozzelle (Rusty.Rozzelle@mecklenburgcountync.gov) with the MCWQ.

Respectfully,

Heidi Pruess, Environmental Policy Administrator Heidi.Pruess@mecklenburgcountync.gov
