

DEVELOPMENT STANDARDS

1. General Provisions:

- a. **Site Location.** These Development Standards form a part of the Rezoning Plan associated with the Rezoning Petition filed by Trinity Episcopal School ("Petitioner") to accommodate the development of a school building addition on a portion of the approximately 6.16 acre site located at the intersection of East 8th Street and McDowell Street (the "Site").
- b. **Zoning Districts/Ordinance.** Development of the Site will be governed by the Rezoning Plan as well as the applicable provisions of the City of Charlotte Zoning Ordinance (the "Ordinance"). Unless the Rezoning Plan establishes more stringent standards the regulations established under the Ordinance for the UR-3 zoning classification shall govern. It is understood that the portion of the Site designated as the "Existing School Site" on the rezoning Plan consists of the existing school facility that was approved pursuant to Rezoning Petition #2000-158, on January 16, 2001, as administratively amended (the "Existing School Rezoning Petition"). While the existing school facilities are to remain on the Existing School Site, this rezoning Petition supersedes the Existing School Rezoning Petition and the existing zoning applicable to the other portions of the Site.
- c. **Graphics and Alterations.** The schematic depictions of the uses, parking areas, sidewalks, structures and buildings, building elevations, driveways, streets and other development matters and site elements (collectively the "Development/Site Elements") set forth on the Rezoning Plan should be reviewed in conjunction with the provisions of these Development Standards. The layout, locations, sizes and formulations of the Development/Site Elements depicted on the Rezoning Plan are graphic representations of the Development/Site elements proposed. Changes to the Rezoning Plan not anticipated by the Rezoning Plan will be reviewed and approved as allowed by Section 6.207 of the Ordinance.

Since the portion of the development designated the "Proposed Eighth Street Addition," among other features, have not undergone the design development and construction phases, it is intended that this Rezoning Plan provide for flexibility in allowing some alterations or modifications from the graphic representations of the Development/Site Elements. Therefore, there may be instances where minor modifications will be allowed without requiring the Administrative Amendment Process per Section 6.207 of the Ordinance. These instances would include changes to graphics if they are:

i.minor and don't materially change the overall design intent depicted on the Rezoning Plan.

The Planning Director will determine if such minor modifications are allowed per this amended process, and if it is determined that the alteration does not meet the criteria described above, the Petitioner shall then follow the Administrative Amendment Process per Section 6.207 of the Ordinance; in each instance, however, subject to the Petitioner's appeal rights set forth in the Ordinance.

- d. **Number of Buildings Principal and Accessory.** The total number of principal buildings to be developed on the Site shall not exceed two (2). Accessory buildings and structures located on the Site shall not be considered in any limitation on the number of buildings on the Site. Accessory buildings and structures will be constructed utilizing similar building materials, colors, architectural elements and designs as the principal building located on the Site. Accessory structures and buildings include structures and buildings such as but not limited to: a mail kiosk, dumpster enclosures, gazebos, trellises, storage buildings, and other structures associated with the on-site open space.

2. Permitted Uses & Development Area Limitation:

- a. The Site may be developed with up to 2 principal buildings, together with accessory uses and structures as allowed in the UR-3 zoning district.
- b. The maximum number of students is 500, which is consistent with the original rezoning petition for the school.

3. Access and Transportation:

- a. Primary vehicular access to the Site will be from North Myers Street in the manner generally depicted on the Rezoning Plan.
- b. The service entries must be designated as separate entrances from the visitor traffic.
- c. Access by the general public shall be permitted to the school grounds, subject to limitations as to use and access described below as to the Playground Area located on the Existing School Site.
- d. All vehicular driveway connections shall meet City of Charlotte Department of Transportation requirements and standards.

4. Architectural Standards, Court Yards/Amenity Areas:

- a. A formal front to the school must face Myers Street emphasizing the school's location at the terminus of the linear space along Ninth Street, such as is provided by the entrance to the existing building on the Existing School Site.
- b. Height of the buildings shall comply with the Ordinance.
- c. The service entries must not be located along the property line with adjacent residences because of the potential negative impact on adjacent residences. The service areas along McDowell shall be designed substantially as depicted on the Rezoning Plan
- d. The building face of the building on the Existing School Site along McDowell Street must provide a setback of at least 30' from the back of the existing curb and must have a highly articulated facade with windows and doors; large expanses of blank walls are not appropriate; such as the architectural treatment associated with the existing building on the Existing School Site is acceptable.
- e. The character and material used in the Eighth Street Addition must reinforce the character of the surrounding First Ward neighborhood and as such shall be generally keeping with the existing building(s) on the Existing School Site. The elevation for the building to be built on the Existing School Site is attached on Sheet RZ-3; minor changes that do not change the design intent may be made.

5. Streetscape, Buffers, Yards, and Landscaping:

- a. The Rezoning Plan sets forth a landscaped edge and treatment for that portion of the Site between the Eighth Street Addition and the adjacent residential lot/home located along Eighth Street as generally depicted on Sheet RZ-2. This landscaped edge and treatment shall include the material shown on Sheet RZ-2 including landscaping, grass and sidewalk improvements.
- b. The Rezoning Plan sets forth a landscaped edge and treatment for that portion of the Site between the field/open space area and the rear portion of the three (3) residential lots/homes located along Eighth Street as generally depicted on Sheet RZ-2. This landscaped edge and treatment shall consist of the existing vegetation along this edge as generally depicted on Sheet RZ-2.
- c. The Rezoning Plan sets forth a landscaped edge and treatment for that potion of the Site consisting of the existing playground area (the "Playground Area") and located adjacent to the residential lot/home that fronts 9th Street/N. Myers Street as generally depicted on the Rezoning Plan and Sheet RZ-2. This landscaped edge and treatment shall include the landscaped material shown on Sheet RZ-2. **[NOTE: THE LANDSCAPED EDGE AND TREATMENT FOR THIS AREA OF THE SITE IS UNDER CONSIDERATION IN CONNECTION WITH DISCUSSIONS WITH THE OWNERS OF THE ADJACENT RESIDENTIAL LOT/HOME]**
- d. Existing trees located in the tree protection zone as generally depicted on the Rezoning Plan shall remain and/or proposed planting shall conform to the City of Charlotte Tree Ordinance.
- e. The setback of the building located on the Eighth Street Addition Site shall be twenty-five (25) feet from the back of existing curb along McDowell Street and along Eighth Street.
- f. An eight (8) foot planting strip and an eight (8) foot sidewalk shall be installed along Eight Street and McDowell Street in front of the building on the Eighth Street Addition Site.
- g. Except as referenced in the preceding subsection f., the existing six (6) foot planting strip and six (6) foot wide sidewalk along McDowell Street shall remain.
- h. Landscaping shall be installed along the parking area located on the Existing School Site as needed to comply with Ordinance screening requirements.
- i. Petitioner shall grant an easement to the City of Charlotte for the area two (2) feet behind and adjacent to the existing sidewalk along McDowell Street to allow the City to more easily maintain such sidewalk areas. This easement shall be granted prior to issuance of the CO for the New Building Addition.

6. Environmental Features and Lighting:

- a. Storm drainage shall comply with the Charlotte City Council approved and adopted Post Construction Controls Ordinance.
- b. The Site will comply with the Tree Ordinance.
- c. Detached lighting on the Site will be limited to 20 feet in height. Lighting must be directed away from the adjacent residences.

7. Signage:

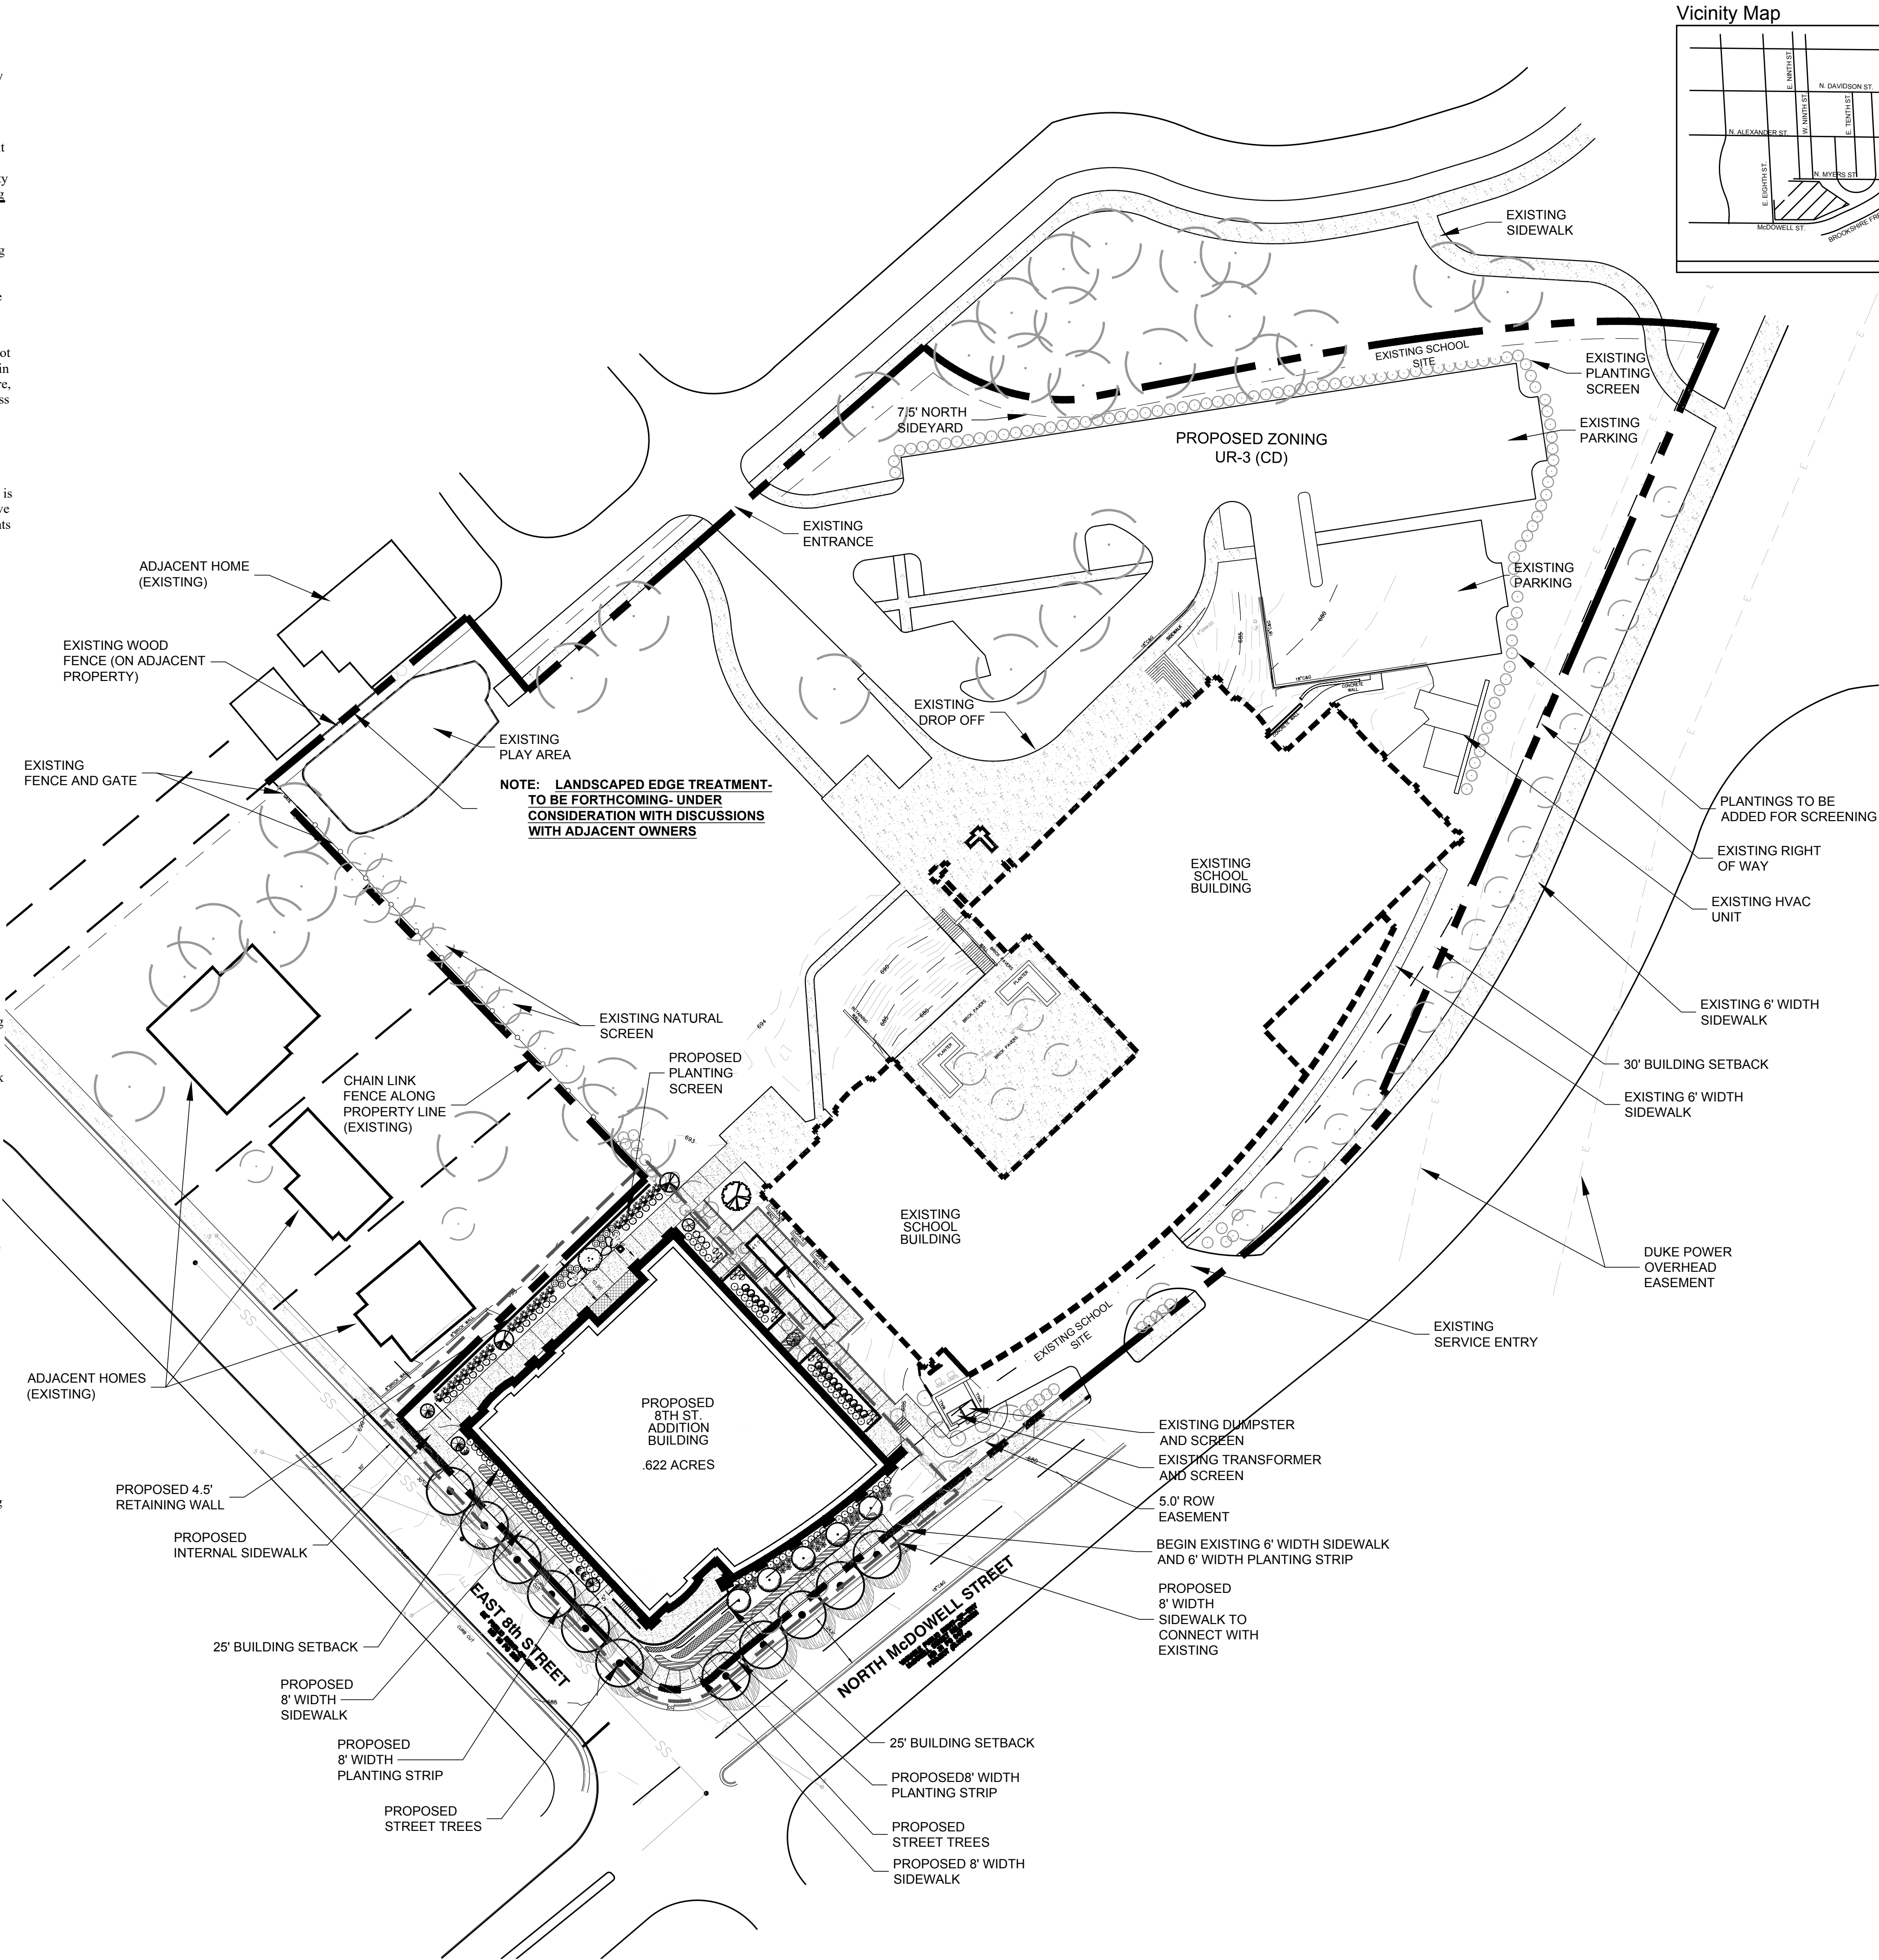

- a. No billboards shall be located on the site.

8. Amendments to the Rezoning Plan:

- a. Future amendments to the Rezoning Plan (which includes these Development Standards) may be applied for by the then Owner or Owners of the applicable Development Area portion of the Site affected by such amendment in accordance with the provisions of Chapter 6 of the Ordinance.

9. Binding Effect of the Rezoning Application:

- a. If this Rezoning Petition is approved, all conditions applicable to the development of the Site imposed under the Rezoning Plan will, unless amended in the manner provided under the Ordinance, be binding upon and inure to the benefit of the Petitioner and subsequent owners of the Site and their respective heirs, devisees, personal representatives, successors in interest or assigns.

DEVELOPMENT DATA
(INCLUDES BOTH EXISTING SCHOOL SITE AND 8TH STREET ADDITION SITE AS NOTED)

Acreage:	+/- 6.16 Acres
Petition #:	2017-004
