- a. Rezoning Site Acreage = 1.52 Acres b. Tax Parcels included in Rezoning
- c. Existing Zoning
- R-22MF d. Proposed Zoning
- 0-1 (CD)
- e. Square Footage of Buildings
- 7,500 square feet maximum Medical Center 4,000 square feet maximum — Community Center
- Maximum Building Height
- g. Maximum Number of Buildings

h. Parking Spaces

Minimum provided at 1 Space per 200 SF (Medical Center)

Minimum provided at 1 Space per 250 SF (Community Center)

- EMH&T on 12/5/2017. Surrounding roadway infrastructure improvements reflected on the proposed conditions as part of Rezoning Plan 2017-027 were provided by others.
- o. The schematic depictions of the parking areas, sidewalks, buildings, driveways, layout, locations and sizes depicted on this Rezoning Plan are graphic representations. Changes to the Rezoning Plan will be reviewed and approved as allowed by Section 6.207 of the Ordinance
- Plan provide for flexibility in allowing some alterations or modifications from the graphic representations of the Development/Site Elements. Therefore, minor instances that don't materially change the overall design intent depicted on the Rezoning Plan will be allowed without requiring the Administrative Amendment Process per Section 6.207 of the Ordinance
- d. The Planning Director will determine if such minor modifications are allowed per this amended process, and if it is determined that the alteration does not meet the criteria described above. the Petitioner shall then follow the Administrative Amendment Process per Section 6.207 of the

a. Uses permitted under 0-1 Zoning as part of the City of Charlotte Zoning Ordinance.

a. Vehicular access to the site will be from Newland Avenue in the manner generally depicted on

of portions of the following: brick, stone, precast stone, precast concrete, synthetic stone, cementitious siding (such as hardi-plank), stucco, EIFS, decorative block, architectural metal panels and/or wood. Vinyl as a building material may only be used on windows, soffits and on

- o. The building walls located on Newland Avenue and Statesville Avenue will be designed to include store fronts with glass facing each street. The building facades fronting these public streets shall include a minimum of 40% transparent glass between 2' and 10' on the first floor. However, the service side of the buildings will be allowed to reduce the amount of transparent glass between 2' and 10' to 20%. Up to 10% of this requirement may be comprised of display windows. These display windows must maintain a minimum of 3' clear depth between window and rear wall. Windows within this zone shall not be screened by materials applied directly to the glass, such as, but not limited to, films, decals, and other opaque materials. The maximum sill height for required transparency shall not exceed 4' above adjacent street sidewalk.
- Building elevations shall not have expanses of blank walls greater than 20'; in all directions and architectural features such as but not limited to banding, medallions or design features or materials will be provided to avoid a sterile, unarticulated blank wall treatment.
- I. Building elevations shall be designed with vertical bays or articulated architectural features which shall include a combination of at least three of the following: a combination of exterior wall offsets (projections and recesses), columns, pilasters, change in materials or colors, awnings, arcades or other architectural elements.
- e. The ends of buildings facing public streets will be designed to have architectural features to help
- Sidewalks will be provided that connect the principle building entrance (the "front door") to the sidewalk along the public street.

Streetscape and Landscaping

- a. This development is not contingent upon any adjacent offsite roadway improvements as identified as part of Rezoning Plan 2017-027
- b. All landscaping and screening requirements shall meet the standards set forth by the City of Charlotte Zoning Ordinance.
- c. The petitioner will provide a sidewalk network that links the proposed building on the site to the sidewalk along each of the abutting public streets in the manner generally depicted on the rezoning plan. The minimum width of this internal sidewalk will be five (5) feet.
- e. Dumpster and recycling areas will be enclosed by a solid wall or fence with one side being a decorative gate. The wall or fence used to enclose the dumpster will be architecturally

d. Above ground backflow preventers will be screened from public view and will be located outside

- compatible with the building materials and colors used on the principle building. Community artwork <u>may</u> be incorporated into the design of the site so long as it does not
- impact the architectural standards set forth in section 5. g. The site development <u>may</u> include community gardens so long as all landscape standards are

Development on the site shall comply with the City of Charlotte Post Construction Controls

The location, size, and type of storm water management systems (BMP) depicted on the Rezoning Plan are subject to review and approval as part of the full development plan submittal and are not implicitly approved with this rezoning. Adjustments may be necessary in order to accommodate actual storm water treatment requirements and natural site discharge

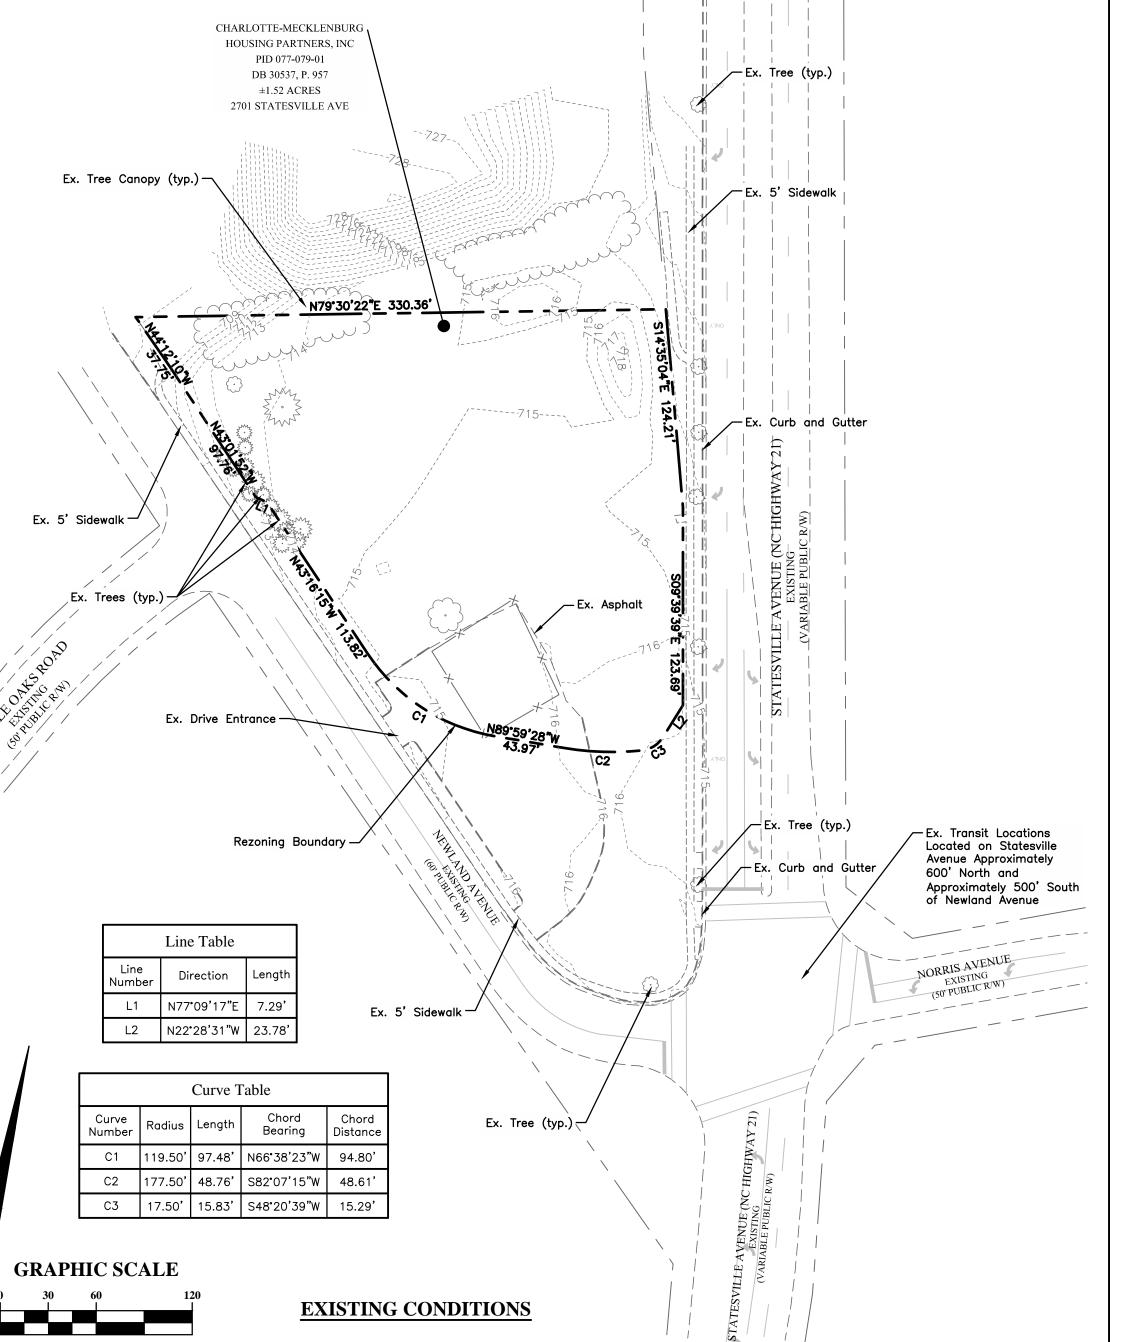

Parks, Greenways and Open Space

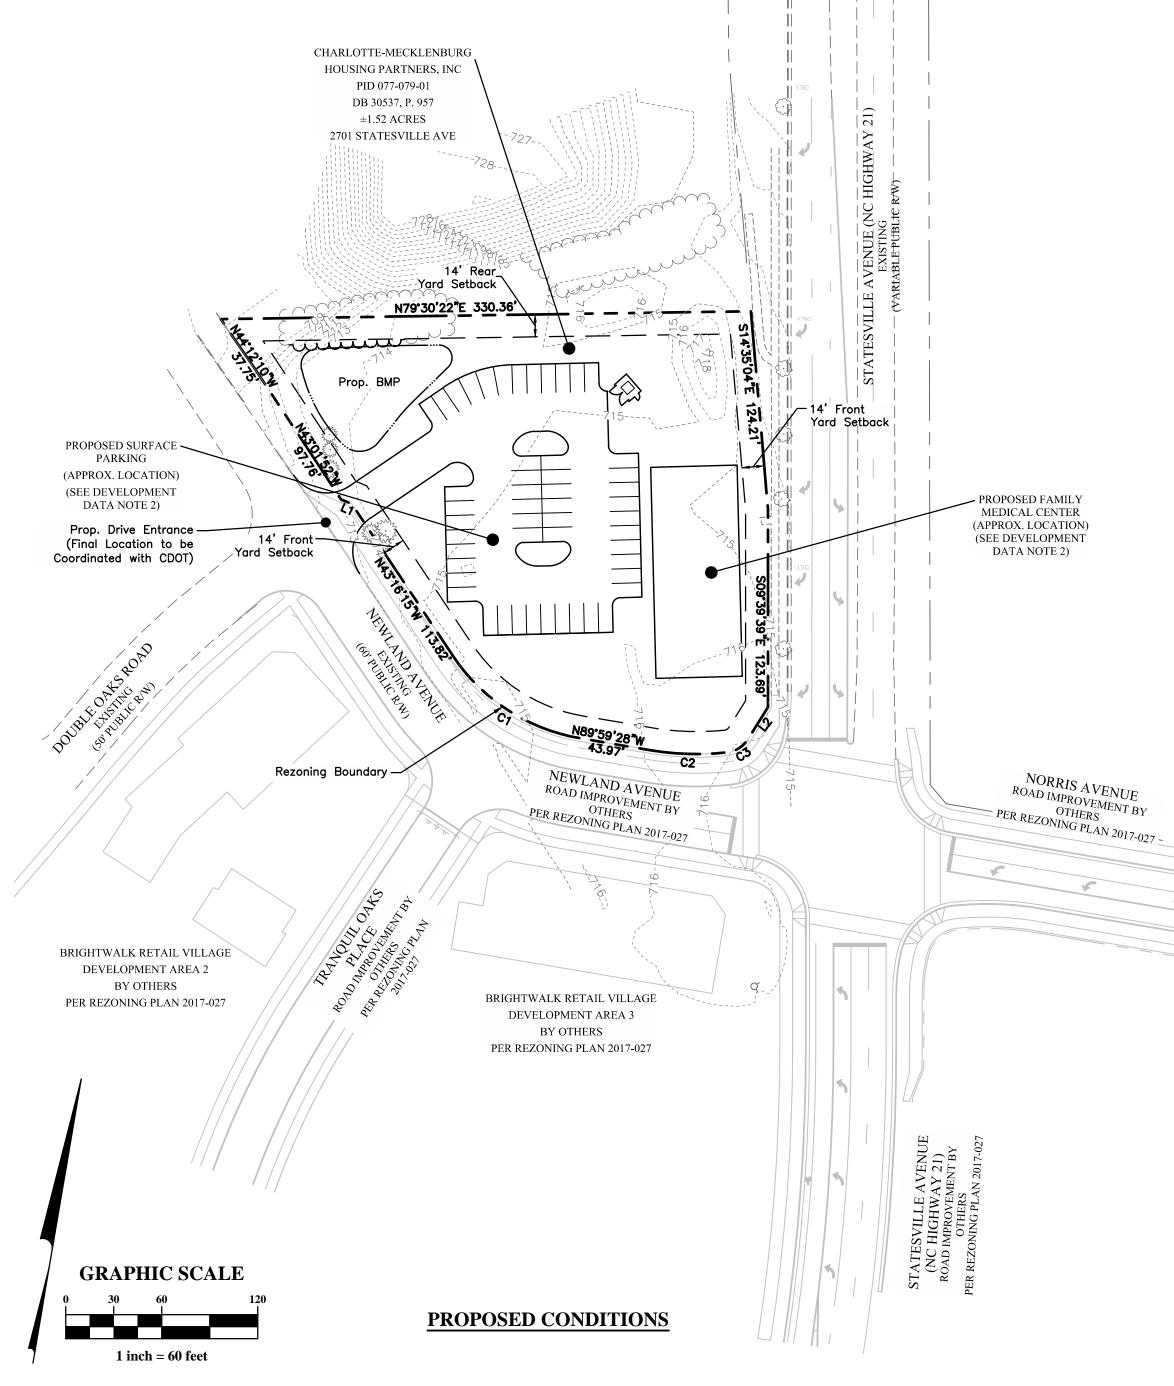

a. Parking will generally conform to the layout shown on the plan. Parking shall meet the requirement set forth by the City of Charlotte Zoning Ordinance.

a. Fire protection shall meet the requirements set forth by the City of Charlotte Fire Department.

a. All new detached and attached lighting shall be full cut—off type lighting fixtures with exception of decorative lighting that may be installed along the driveways, sidewalks and parking areas. b. Detached lighting on the site will be limited to 21 feet in height.

1 inch = 60 feet
