Rezoning Petition

Site Development Data:

--Acreage: ± 40.425 acres

--Tax Parcel #: 223-141-52, 223-141-53, 223-141-54, 223-141-55, 223-141-56,
223-141-57 & 223-141-58

--Existing Zoning: R-3

--Proposed Zoning: O-2(CD)

--Existing Uses: Agriculture/ Residential/Vacant

--Proposed Uses: Clinics and offices, medical, dental, and optical, and a health institution as permitted by right and under prescribed conditions together with accessory uses, including a helicopter landing pad as allowed in the O-2 zoning district (as more specifically described and restricted below in Section 2).

--Maximum Gross Square Feet of Development: Up to 223,000 square feet of gross floor area for clinics and offices, medical, dental, and optical, and a health institution with up to 48 licensed patient bedrooms

--Maximum Building Height: To be of five (5) stories but not to exceed 75 feet as allowed by the Ordinance. Height to be measured as required by the Ordinance.

--Parking: Parking will be provided as required by the Ordinance.

1. General Provisions:

a. **Site Location.** These Development Standards form a part of the Rezoning Plan associated with the Rezoning Petition filed by Novant Health, Inc. ("Petitioner") to accommodate the development of a medical office and health institution building with a variety of medical uses as allowed in the O-2 zoning district on approximately 40.425 acre site located at the southeast intersection of Providence Road West and Johnston Road (HWY 521) (the "Site").

b. **Zoning Districts/Ordinance.** Development of the Site will be governed by the Rezoning Plan as well as the applicable provisions of the City of Charlotte Zoning Ordinance (the "Ordinance"). Unless the Rezoning Plan establishes more stringent standards, the regulations established under the Ordinance for the O-2 zoning classification shall govern.

c. **Graphics and Alterations.** The schematic depictions of the uses, parking areas, sidewalks, structures and buildings, driveways, and other development matters and site elements (collectively the "Development/Site Elements") set forth on the Rezoning Plan should be reviewed in conjunction with the provisions of these Development Standards. The layout, locations, sizes and formulations of the Development/Site Elements depicted on the Rezoning Plan are graphic representations of the Development/Site elements proposed. Changes to the Rezoning Plan not anticipated by the Rezoning Plan will be reviewed and approved as allowed by Section 6.207 of the Ordinance.

Since the project has not undergone the design development and construction phases, it is intended that this Rezoning Plan provide for flexibility in allowing some alterations or modifications from the graphic representations of the Development/Site Elements. Therefore, there may be instances where minor modifications will be allowed without requiring the Administrative Amendment Process per Section 6.207 of the Ordinance. These instances would include changes to graphics if they are:

i. minor and don't materially change the overall design intent depicted on the Rezoning Plan.

The Planning Director will determine if such minor modifications are allowed per this amended process, and if it is determined that the alteration does not meet the criteria described above, the Petitioner shall then follow the Administrative Amendment Process per Section 6.207 of the Ordinance; in each instance, however, subject to the Petitioner's appeal rights set forth in the Ordinance.

2. Permitted Uses & Development Area Limitation:

a. The Site may be developed as a single, multi-story medical office and health institution building to include up to 60,000 square feet of gross floor area of clinics and offices, medical, dental and optical, and up to 163,000 square feet of health institution with up to 48 licensed patient bedrooms, together with accessory uses, including a helicopter landing pad, as allowed in the O-2 zoning district.

For purposes of the development limitations set forth in these Development Standards for this Petition (but not to be construed as a limitation on FAR requirements or definition set by the Ordinance), the following items will not be counted as part of the allowed gross floor area (floor area as defined by the Ordinance) for the Site: surface or structured parking facilities, helicopter landing pad, and all loading dock areas (open or enclosed).

b. The setback around the Site will be 20 feet as measured from the existing right-of-way lines.

c. The helipad shall be set back a minimum of one hundred and twenty (120) feet from adjacent rights of way.

3. **Transportation Improvements:** Petitioner is in the process of obtaining a Traffic Impact Analysis to determine what, if any, improvements may be required to mitigate additional traffic caused by the proposed development of the Site.

4. Access and Transportation:

a. Access to the Site will be from Johnston Road and Providence Road West in the manner generally depicted on the Rezoning Plan.

b. The placement and configuration of the vehicular access points are subject to any minor modifications required to accommodate final site development and construction plans and to any adjustments required for approval by CDOT and/or NCDOT in accordance with applicable published standards.

c. The alignment of the driveways may be modified by the Petitioner to accommodate changes in traffic patterns, parking layouts and any adjustments required for approval by CDOT and/or NCDOT in accordance with published standards.

5. Streetscape, Buffers, Yards and Landscaping:

a. Along the Site's frontage on Johnston Road and Providence Road West, the Petitioner will construct an eight (8) foot planting strip and a six (6) foot sidewalk as generally depicted on the Rezoning Plan.

b. The Petitioner will provide a 75 foot wide Class B Buffer against adjacent residential development as generally depicted on the Rezoning Plan. Petitioner reserves the right to use existing vegetation to meet the intent of the Ordinance buffer yard requirements.

c. Petitioner shall have the option to reduce any required buffer width by 25% through the provision of a wall, fence or berm that meets Ordinance standards.

d. Above-ground backflow preventers will be screened from public view and will be located outside of the required setbacks.

e. Dumpster areas and recycling areas will be enclosed by a solid wall with one side being a decorative gate. The wall used to enclose the dumpster will be architecturally compatible with the building materials and colors used on the principal building.

6. Architectural Standards:

1.

a. Facades fronting streets shall include a combination of windows and operable doors for a minimum of 60% of each frontage elevation transparent glass between 2' feet and 10' feet on the first floor. Up to 20% of this requirement may be comprised of display windows. These display windows must maintain a minimum of 3'-0" foot clear depth between window and rear wall. Windows within this zone shall not be screened with film, decals, and other opaque material, glazing finishes or window treatments. The maximum sill height for required transparency shall not exceed 4'-0" feet above adjacent street sidewalk.

c. The facades of first/ground floor of the buildings along streets shall incorporate a minimum of 30% masonry material such as brick or stone.

d. Building elevations shall not have expanses of blank walls greater than 20 feet in all directions and architectural features such as but not limited to banding, medallions, or design features or materials will be provided to avoid a sterile, unarticulated blank treatment of such walls.

e. Building elevations shall be designed with vertical bays or articulated architectural features which shall include a combination of at least three of the following: a combination of exterior wall off-sets (projections and recesses), columns, pilasters, change in materials or colors, awnings, arcades, or other architectural elements.

f. Buildings should be a minimum height of 22 feet.

g. Multi-story buildings should have a minimum of 20% transparency on upper stories.

7. Environmental Features:

a. The Petitioner shall comply with the Charlotte City Council approved and adopted Post Construction Ordinance.

b. Stormwater collection and drainage facilities provided on the Site will meet Ordinance requirements.

c. The Site will comply with the Tree Ordinance.

8. Lighting:

a. All new detached and attached lighting shall be full cut-off type lighting fixtures excluding lower, decorative lighting that may be installed along the driveways, sidewalks, and parking areas.

b. Detached lighting on the Site will be limited to 31 feet in height.

9. Amendments to the Rezoning Plan:

a. Future amendments to the Rezoning Plan (which includes these Development Standards) may be applied for by the then Owner or Owners of the portion of the Site affected by such amendment in accordance with the provisions of Chapter 6 of the Ordinance.

10. Binding Effect of the Rezoning Application:

a. If this Rezoning Petition is approved, all conditions applicable to the development of the Site imposed under the Rezoning Plan will, unless amended in the manner provided under the Ordinance, be binding upon and inure to the benefit of the Petitioner and subsequent owners of the Site and their respective heirs, devisees, personal representatives, successors in interest or assigns.
