- b. **Zoning Districts/Ordinance.** Development of the Site will be governed by the Rezoning Plan as well as the applicable provisions of the City of Charlotte Zoning Ordinance (the “Ordinance”) in existence as of the date of the approval of this Rezoning. Unless the Rezoning Plan establishes more stringent standards, the regulations established under the Ordinance for the I-1 zoning classification shall govern all development taking place on the Site.

c. **Graphics and Alterations** Any schematic depictions of the building envelopes, parking areas, sidewalks, driveways, streets, and other development matters and site elements (collectively the "Development/Site Elements") set forth on the Rezoning Plan should be reviewed in conjunction with the provisions of these Development Standards. Any layouts, locations, sizes and formulations of the Development/Site Elements depicted on the Rezoning Plan are graphic representations of the Development/Site elements proposed. Changes to the Rezoning Plan not anticipated by the Rezoning Plan will be reviewed and approved as allowed by Section 6.207 of the Ordinance.

Since the project has not undergone the design development and construction phases, it is intended that this Rezoning Plan provide for flexibility in allowing some alterations or modifications from the graphic representations of the Development/Site Elements. Therefore, there may be instances where minor modifications will be allowed without requiring the Administrative Amendment Process per Section 6.207 of the Ordinance. These instances would include changes to graphics if they are:

- i. minor and don't materially change the overall design intent depicted on the Rezoning Plan; such as minor modifications to the configurations of any building envelope, driveways and parking area dimensions and the like as long as the modifications maintain the general building/parking orientation and character of the development generally depicted on the Rezoning Plan.

The Planning Director will determine if such minor modifications are allowed per this amended process, and if it is determined that the alteration does not meet the criteria described above, the Petitioner shall then follow the Administrative Amendment Process per Section 6.207 of the Ordinance; in each instance, however, subject to the Petitioner's appeal rights set forth in the Ordinance.

- d. **Number of Buildings Principal and Accessory.** Notwithstanding the number of building(s) shown on the Rezoning Plan, the total number of principal buildings to be developed on the Site will be limited to two (2). Accessory buildings and structures located on the Site shall not be considered in any limitation on the number of buildings on the Site.
