Revision Log:

Date	Description
01-08-20	First Review

General Review Information

The site is at the signalized intersection of N Tryon Street (major thoroughfare, state maintained) and Atando Avenue (minor thoroughfare, city maintained). The site is in a corridor inside Route 4 and is within the limits of the North Tryon Area Plan.

Active Projects Near the Site:

- Tryon St-36th St Streetscape Project
The project will provide infrastructure improvements that include sidewalk, curb and gutter, milling-resurfacing, pedestrian refuge and signals, cross walks, planting strips, street trees, pedestrian and street lighting, bike lanes, and on-street parking.
- XCLT Matheson – Craighead
- Matheson Bridge Streetscape
Incorporate pedestrian, bicycle and aesthetic improvements from North Tryon to Jordan Place.
- N. Tryon Business Corridor (Dalton Ave. to 30th St.)
This project will promote economic development for this area through infrastructure improvements. The project will extend along North Tryon Street from Dalton Avenue to 30th Street.

CDOT's review of this rezoning petition is intended to provide consistency with council adopted policies, plans, standards and guidelines including, but not limited to, the [Transportation Action Plan \(TAP\)](#), [Vision Zero](#), [Urban Street Design Guidelines \(USDG\)](#), [Center, Corridor and Wedges](#), [Charlotte BIKES](#), [Traffic Impact Study Guidelines](#) and [Charlotte WALKS](#). With a commitment to design complete streets, this review is to ensure that the City's transportation network supports current and future land uses and includes streets that provide safe and comfortable mobility for motorists, pedestrians, bicyclists, and transit users.

This document is primarily for communication to Planning Department staff as part of the overall City staff analysis of the rezoning petition and includes an overall summary of the case from a transportation perspective, information on trip generation, and resolved or outstanding site plan concerns. Additional advisory information about the driveway permit process is provided for information only.

Based on our review of the petition, we offer the following information for your consideration.

Transportation Summary

The site is located on a major thoroughfare and is less than ½ mile from the 36th Street LYNX Blue Line Station. CDOT will work with the petitioner during permitting to implement a streetscape to support the proposed transit oriented zoning.

Trip Generation

Scenario	Land Use	Intensity	Trip Generation (vehicle)	Source
----------	----------	-----------	---------------------------	--------

Rezoning Transportation Analysis

Petition Number: 2019-171

General Location Identifier: 08303141, N Tryon St & Atando Ave

			trips/day)	
Existing Use	Automobile Sales	2.55 ac	80	Tax Record
Entitlement with Current Zoning	Warehouse	38,250 sf	110	General Guidance from Planning
Proposed Zoning	2.55 ac of TOD-UC	Too many uses to determine		General Guidance from Planning

Outstanding Issues

~~Strikeout~~ = Not an outstanding issue

1. **Traffic Study** A Traffic Impact Study is not necessary for the complete review of this petition. If the during the permitting process the site generates more than 2,500 daily trips, then a traffic study will be required.

2. **Resolved** ~~Sample format for comment that is resolved~~

Advisory Information

The following are requirements of the developer that must be satisfied prior to driveway permit approval. We recommend that the petitioner reflect these on the rezoning plan as-appropriate.

1. The setback for this district is measured from the back of the existing or future curbline as determined by CDOT and Planning during the permitting process.
2. According to the City of Charlotte's Driveway Regulations, CDOT has the authority to regulate/approve all private street/driveway and public street connections to the right-of-way of a street under the regulatory jurisdiction of the City of Charlotte.
3. Adequate sight triangles must be reserved at the existing/proposed street entrance(s). Two 35' x 35' sight triangles (and two 10' x 70' sight triangles on North Carolina Department of Transportation on NCDOT maintained streets) are required for the entrance(s) to meet requirements. All proposed trees, berms, walls, fences, and/or identification signs must not interfere with sight distance at the entrance(s). Such items should be identified on the site plan.
4. The proposed driveway connection(s) to public streets will require a driveway permit(s) to be submitted to CDOT (and the North Carolina Department of Transportation on NCDOT maintained streets) for review and approval. The exact driveway location(s) and type/width of the driveway(s) will be determined by CDOT during the driveway permit process. The locations of the driveway(s) shown on the site plan are subject to change in order to align with driveway(s) on the opposite side of the street and comply with City Driveway Regulations and the City Tree Ordinance.
5. All proposed commercial driveway connections to a future public street will require a driveway permit to be submitted to CDOT for review and approval.
6. Any fence or wall constructed along or adjacent to any sidewalk or street right-of-way requires a certificate issued by CDOT.
7. A Right-of-Way Encroachment Agreement is required for the installation of any non-standard item(s) (irrigation systems, decorative concrete pavement, brick pavers, etc.) within a proposed/existing City maintained street right-of-way by a private individual, group, business, or homeowner's/business association. An encroachment agreement must be approved by CDOT prior to the construction/installation of the non-standard item(s). Contact CDOT for additional information concerning cost, submittal, and liability insurance coverage requirements.
